HOCKEY LETTERS ARE AWARDED BY COUNCIL

Report Of Wrestling Season Is Made By Manager Of The Team.

At a meeting of the Advisory Council on athletics held last Wednesday evening at the Technology Club, a thorough discussion of the basketball situation was held. It was expressed as the sentiment of those present that the M. I. T. A. should pay the guarantees of $50 due the New Hampshire State, and $26 due the Connecticut Agricultural College, incurred in his senior year.

Manager H. G. Morse made a report on the wrestling season, with the following in an abstract:

The team entered three college meets, won one, and lost two, and four M. C. A. meets, winning every one. Of the thirty-two bouts won by Tech, thirteen were falls, and forty-nine on decision. Of the fifteen

ARCHITECTS SMOKER

Boston And Harvard Men Are Guests Of Local Society.

At the smoker held by the Architectural Society in 42 Fierce last night, Professor H. W. Gardner of the Institute and Mr. W. T. Aldrich of the Boston Society of Architects criticized the drawings done in the recent prize problem which was taken simultaneously by Technology, Harvard, and the Boston Architectural Club.

In this annual competition the Boston Society of Architects grants four prizes. The prize for the best design from Harvard, one for the best design from the Institute, one for the best design from the Architectural Club, and one for the best design from any other college. These prizes are given for work that has been submitted to the Tech for the work unassigned.

The book bound in leather of the school colors of the ordinary size containing about one hundred and fifty pages is to be issued to the students and faculty free of charge. The book will consist of a diary with the principles of design and drawings formed in the city, the officers of every organization, club and society, all the athletic records, the point system, an alphabetical list of members, Tech songs and yells, qualifications for Instituted insignia or class numerals, addresses of the fraternity, sorority, and other clubs for each term, a map of Boston, a list of the churches, and so forth.

TECH SHOW POSTER

Placed On Sale At Cage This Morning.

The new Tech Show poster, "Getting A-Cross" is now printed, and it will be placed on sale at the "Cage" this morning. The poster was selected from a number submitted in a competition held soon after the name of the show was given out. Professor H. W. Gardner, R. G. Freeman '15. Copies will be sold at twenty-five cents each.

Post cards have been made up with the design of a poster submitted in the same competition by V. H. l. h. a special student in architecture. These are to be mailed to the students of many of the schools in and around Boston.

REV. MAGUIRE SPEAKS

Yesterday at the T. C. A. talk, Reverend G. H. Maguire addressed the students very convincingly on the subject of crossing, telling many interesting stories of his experiences among the savages of Africa with the savages. He converted a witch doctor whose business was not only the hearts of his fellow lowmen who were suspected of crime.

The committee was to be held today at the same place and time, and all the members were present. They were to have a vote on the question of the final decision by a majority vote.

FRESHMAN BASEBALL

A good sized squad of candidates for the 1916 Baseball team practiced yesterday afternoon on the Columbus Avenue play grounds. Practice will be held today at the same place at 4:15 and Saturday in Cambridge on the grounds near the bridge. Tickets at 25 cents. Tickets for four will take place Monday at $5.00.

TECHNOLOGY "BIBLE" IS TO BE RENEWED

T. C. A. Is To Publish Student's Handbook To Be Given Out Next Term.

At the beginning of school last September, all the upperclassmen noticed and wondered over the absence of the Technology "Bible" or student's handbook which they had been accustomed to receiving. The T. C. A. was unable to continue this due to the fact that the B. T. M. C. A. and the T. C. A. did not complete their work in time to get the book out. In past years, the former institution has published handbooks for the different classes of students and the T. C. A. is to do the work unassigned.

A book bound in leather of the school colors of the ordinary size containing about one hundred and fifty pages is to be issued to the students and faculty free of charge. The book will consist of a diary with the principles of design and drawings formed in the city, the officers of every organization, club and society, all the athletic records, the point system, an alphabetical list of members, Tech songs and yells, qualifications for Instituted insignia or class numerals, addresses of the fraternity, sorority, and other clubs for each term, a map of Boston, a list of the churches, and so forth.

INTERCLASS RUN WILL BE HELD TOMORROW

To Be Run Over N. E. L. C. A. A. Five Mile Course At Franklin Field.

The annual interclass cross country, run between the freshmen and sophomores, will be held tomorrow afternoon at Franklin Field. The run will start at three o'clock and will be over the New England Intercollegiate course, covering about five miles and will be the first time that Tech has run off on any course other than the Tech course. The first five men coming in for each team will count. There will in reality be two races run, off at the same time, and much, as one man, such as Kellogg will be taken by courses and the other by classes. Some of the upperclassmen will probably run with the men to see the pace. The following men are expected to give a good account of themselves: Sophomores Allen, Brooks, Parker, Dudge, Litchfield, Mason, Richmond and Harrington, and the following men will be among those to represent the freshmen class: Strong, Mumford, Bond, Campbell, Zubria, McVicker, Clogher, McCray, Greeley and Bellotesh.

UNIVERSITY INSTITUTE COMMITTEE TO SUPPORT MONTHLY

Magazine On Sound Basis—Niemand Zu Hause Proves Profitable.

At the meeting of the Institute Committee yesterday afternoon, it was decided to allow the Technology Monthly to continue publication, after the magazine was shown conclusively that it was well established financially and well supplied with material. The Committee acting individually will be held off tomorrow, after which Monthly Reports were heard from the Finance and Budget Committees, and Smith and Maguire were appointed a committee to investigate the basketball situation. The Point System Committee, consisting of M. E. White and A. H. Waitt, were required to reduce the number of points they are carrying.

The Committee on Niamand zu Hause reported informally an approximate net gain of five hundred dollars. The matter of a $100.00 tax for athletics was considered and it was suggested that a ballot be taken to find the sentiments of the student body.

Elections to the next volume of The Tech and appointments of assistants in the Show were ratified, and A. F. Halbrook was appointed to the Point System Committee. In place of K. Dean, resigned.

It was moved and passed that a committee be appointed to consider a general convention to be held before Junior Week.

TECH SHOW REHEARSAL

First Act To Be Played At Opera House Tomorrow.

Tomorrow afternoon the first rehearsal of the entire Tech Show cast in the Opera House will take place. Owing to the efforts of Robert Hume, the entire first act is now in shape for a complete rehearsal, and it will be filled off tomorrow, after which the second act will be taken up.

A preliminary rehearsal of the cast, chorus and orchestra was held in the Opera House on Wednesday afternoon, and there will be a similar one today. These are for the purpose of giving practice in the music, so that all delay at the Opera House may be avoided.
