Civils to Meet

Mr. J. W. Rollins Will Give Illustrated Talk.

The Civil Engineering Society is to hold its second afternoon meeting on Thursday, April 1st, at 4 p.m. The speaker is to be Mr. J. W. Rollins, ’78, of the contracting firm of Rollins, Cabot & Rollins. He will take as his subject “The Reorganization of Contractors and Engineers” and will also show some excellent lantern slides of difficult foundations. These slides have been shown before the American Society of Civil Engineers and other prominent institutions, and are among the best ever taken. Mr. Rollins is a former president of the Technology Alumni and vice-president of the Boston Society of Civil Engineers. At present he is vice-president of the Boston City Club. Among the notable engineering structures which he has constructed are the Charles River Dam, the Newcomen Bridge and many works for the United States government. The meeting is to be held in Room 11, Engineering B.
