Mr. W. S. Hutchinson, 1892, Will Be The Speaker.

Mr. W. S. Hutchinson, Technology 1892, and Professor C. F. Locke, will be the speakers at the Mining Society meeting next Friday night. Mr. Hutchinson will talk on quicksilver mining in Arizona and platinum mining at Good Springs, Nevada. At present the world's supply of those materials comes from Europe, the platinum from the Ural Mountains and the quicksilver from Spain. Naturally the price of them is considerably affected by the present war.

Mr. Hutchinson graduated from the Institute in 1892, and is at present a consulting mining engineer in this city. His entire life's work has been in the mining profession; his early experiences being gold mining in California. Later he had charge of a gold mining enterprise in Idaho and also of some zinc companies in Missouri. For the last five years he has been a consulting engineer and has travelled over a great part of the United States, Mexico and Canada. His entire life's work has been in the mining profession, his early experiences being gold mining in California. Later he had charge of a gold mining enterprise in Idaho and also of some zinc companies in Missouri. For the last five years he has been a consulting engineer and has travelled over a great part of the United States, Mexico and Canada. Professor Locke will speak on the occurrence and assaying of platinum.

Another call for men to work on the Union is issued today at 1:30 in the T. C. A. meeting next Friday night. Mr. Hutchinson, Technology 1892, and Professor C. F. Locke, will be the speakers at the Mining Society meeting on the evening of 1:30 in the T. C. A.

T. C. A. NEWS

At the T. C. A. talk tomorrow noon in the Union Mr. W. H. Funder, a prominent Boston lawyer, will speak. Mr. Funder has been interested in Ford Hall and has done much work there with G. W. Coleman. He has investigated to a great extent the city unemployed and will speak on the general topic of unemployment.

The T. C. A. elections close Thursday, April 1.

JAS. J. CORBETT
Famous Firefighter and Actor, Says:

"My enthusiasm for the fragrance and mildness of Tuxedo has no limit. Tuxedo is without doubt the most satisfactory pipe tobacco."

Tuxedo Keeps You In the Pink of Condition

Corbett is today as physically vigorous and mentally alert as when he was champion of the world, because he takes good care of himself. He smokes Tuxedo—because he knows that Tuxedo is mild, pleasant, wholesome and beneficial in every way. He takes no chances on other tobaccos.

You can keep yourself sound-winded and in the pink of condition with this mild, fragrant tobacco. Smoke all you want of Tuxedo, it can't hurt you and will give you added pleasure with each puffs of cigarette.

Mild, fragrant, delicious—and as gentle with your tender tongue as the touch of Spring—Tuxedo turns on a new inspiration. It can't bite, it can't sting because that's cut out by the famous original "Tuxedo Process" that first made men realize how good a pipe smoke could be. That process today stands supreme. It never has been duplicated.

THE TECH DINNER

(Coimized from Page One)

The banquet is expected to eclipse all previous ones, both in attendance and entertainment. All men on The Tech who hold positions at present, or who have been elected to the new volume, are invited to be present.

The affair will be strictly informal, and will begin promptly at 6:30.
