SOPHOMORE SHOW LITTLE ENTHUSIASM

Freshmen Take More Interest In Field Day Teams Than Do Their Rivals.

With Field Day a month away, and practice only just begun, it is impossible to make any predictions as to the probable outcome. The freshmen, however, are turning out in greater numbers for the relay and football teams than are the Sophomores, and are showing more "pep" in their practice.

The Sophomore class has twenty-six men practicing at relay as against eight for the second year. This week, practice in starts and in passing the baton will begin. The work for the past week consisted of starts and short sprints up to fifty yards, together with longer runs to get the men in good condition. Of the freshmen, Slubantrauch seems to be doing the best work so far, with Serbst on free in rover and Kimsol from Brookline High not far behind.

In football, the two teams are more evenly matched in point of numbers, there being about twenty freshmen and sixteen Sophomores out at present. The 1915 team will continue to hold its practice at the Field while the Sophomores will work out every afternoon this week at the Y. M. C. A. Field. The men who have reported up to today for the 1918 team are: Captain Clarkson, Appleton, Carlstrom, Johnson, Jones, Kiley, Malley, Nagle, Porter, Ryan, Todd and Watt.

The Sophomore tug-of-war team have beaten their rivals in getting started but it remains to be seen which will get the greater number of men out. It has been the usual thing on former Field Days for the freshmen to win the pull. Captain Burton pointed out, at the first meeting of the 1918 team, that wind and endurance will be the factors in this grueling contest.

Temporary Manager S. C. Dunning of the freshman tug-of-war team has called a meeting of candidates to be held at the Gym at 4:00 o’clock this afternoon, at which he will outline the probable outcome. The freshmen that will go to the pull will be determined.

Students' Discount on DRAFTING INSTRUMENTS...TRACING CLOTH...

WANTED by a reliable and honest lady and daughter, the hollister of a fertilizer house for the coming season. Can furnish the best of references. Have also had a wide experience in this line. Address: MRS. J. H. CLARK 4 Chestnut St., Boston.
