MUSICAL CLUBS GIVE WORK FOR THE COMING SEASON.

Outlined—Good Solos Heard.

A larger and more enthusiastic smoker was held at the Union last evening by the Combined Musical Clubs. Wendell Ford, the General Manager for the ensuing year, opened the meeting and announced among other things that the clubs would, in all probability, give concerts at Philadelphia, Montclair, Rochester and Wellesley, in addition to those nearby Boston. The date of the first concert is Nov. 16; the location as yet is undecided.

The fact that this time is six weeks off is the reason for having tryouts begin immediately. The bulletin board in the Union will keep the students informed about this point. Mr. Lansing, the coach for the Clubs, Allen Abramis, the secretary-treasurer, outlined the financial situation in detail.

The entertainment began with Mr. Daniels at the piano and Hulburd at the traps. This was followed by three large solos by Mr. Lansing, the coach for the Clubs. Allen Abramis then spoke in an interesting manner about last year's successful work. Following this Mr. Frederick Holly of Columbia University sang a few solos. The concluding numbers of the program were two more large solos by Lansing and some songs by H. Williams of last year's Tech Show.

HARE AND HOUNDS

The variety men will be hand-capped so that it will be possible for the newer men to finish first. Captain Brown of the variety is sure to start from scratch with something and Harrington a few seconds ahead of him. The handicap for the variety squad will probably amount to two minutes while the newer men are assured of from five to ten minutes.

Full information regarding time of departure and fare will be posted on the bulletin boards and announced in Friday's issue of The Tech.
