to a lack of "Pep" as the Sophomores
buried the ball and secured a touchdown.

The defeat was by no means due
to a lack of "Pep" as the Sophomores
will discover when Field Day rolls 'round.

The line-up was as follows:

C. E. SOCIETY
(Continued from Page Three)

Professor C. B. Breed was the third
speaker and he gave an interesting de-
scription of the New England Sand
and Gravel Plant at West Peabody.

The plant is a new invention and
worked entirely by machinery, only
four men being needed to operate it.

He illustrated his talk with slides
which showed the various stages the
gravel goes through before reaching
the storage bins. All the gravel is
washed so as to remove any loans or
clay. Washed sand and gravel is a
new product and is rapidly taking the
place of crushed rock in concrete
work because it is cheaper and easier
to handle. In numerous tests it has
stood up equally as well as trap rock.

The plant is complete in that it can
handle. In numerous tests it has
stood up equally as well as trap rock.

The estimated cost is
$23,000.

Men Who Roll Their Own Cigarettes
know the importance of using the best "papers" ob-
tainable. They know that Riz La Croix cigarette
papers are the best that money can buy—famous
the world over for superior quality that never fails
to give the greatest satisfaction.

RIZ LA+
(Pronounced: REE-LAH-KROY)
FAMOUS CIGARETTE PAPERS

Your favorite tobacco is easily rolled into round, firm
cigarettes with Riz La Croix papers. Cigarettes
that hold their shape, draw well and give
you a fine flavor, free from the slightest
taste and after-taste.

The lightness, thin-
ness, natural adhe-
siveness and per-
fecct combustion
of Riz La Croix
guarantee these desirable
properties.

Made from the best flax-linen
—a pure vegetable
product—Riz La
Croix assures health-
ful enjoyment.
