GYM TEAM (Continued from Page One)
teams in past years, the Technology
gymnasts have a difficult task before them.
At the present time Manager Mendelsohn has about fifteen candidates
reporting daily. The practice consists of a short work-out in various
events. At this early date, all the gymnasts have shown excellent form.

doholm has about fifteen candidates
for this year's tumbler, while S. F. Beers,
manager of the Yale gym team 1914, has been showing up
good form on the horizontal bar. Coach Hume has been working
the students should bear in mind that
in making suggestions
ence.
Coach Hume also stated very emphatically that in making suggestions
students should bear in mind that
idea might be all right, but pre-
senting it might be an entirely un-
ged discussion was then called
called for and Freeman, '15, was the first
to offer suggestions. He outlined a
plot which would deal with Institute
environment and introduce such fea-
tures as take-offs on the professors
and night dreams of worried
men and various other stunts.
The predominant idea brought out
the meeting was to have a Show
that should be similar to "On Trial," in that a recurrent scene should tur-
the main thread of the plot. The
plot, however, should deal with the
exploits of students in dreamland,
where they could have all manner of
adventures.

Although nothing definite could be
decided on at the first meeting,
Coach Hume was well satisfied with
the results of the discussion and urged
the men to bring in manuscripts
next Monday, October 25, so that the
real work of editing the book could be
started.

1919 COLLECTORS
There will be a meeting of the freshman Club Collectors, Wednesday
at 1 o'clock in 21 Rogers. The men are asked to be prepared to turn
in money received to date.

STONE & WEBSTER
