Yes, the crowning typewriter triumph is here
It just out—and comes years before experts expected it

CAUTION!
The new-day advances that come alone on this machine are all con-
trolled by Oliver. Even our own previous models—famous in their
day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little
fingers of the right and left hands. And if it lets you write them all
with only 28 keys, the least to operate of any standard typewriter
made.

Thus writers of all other ma-
chines can immediately run the
Oliver Number "9" with more
speed and greater ease.

17 CENTS A DAY
Remember this brand-new Oliver comes
at the old-time price. It costs no
more than lesser makes—now out-
of-date when compared with this
discovery.

While the Oliver's splendid
features are costly—we have
equalized the added expense to us
by simplifying construction.

Resolve right now to see this
great achievement before you spend
a dollar for any typewriter. If you
are using some other make you will
want to see how much more this
one does.

If you are using an Oliver it
naturally follows that you want the
finest model.
