AN EXHIBITION OF 
NEW STAGE CRAFT.

Coach Of Tech Show Leaves To 
Take Charge Of New 
Production.
Mr. Samuel Hume, who coached 
the Tech Show last year, left Boston 
Saturday, almost immediately after 
signing a contract to stage Tl'ech Show 
1916. He leaves for Philadelphia, 
where he is to have charge of "An 
Exhibition of the New Stage Craft." 
Mr. Hume has been traveling 
around the United States with this 
exhibition since last April, when he 
had charge of the production of 
"Getting A-Cross." The new stage 
craft has interested Europe for some 
time, but has only recently been tak-
en up in the United States. The 
theatre directors of Russia and Ger-
many have been absorbed in making 
progress in stage design and theatric-
al production for the last ten years 
and by original and artistic use of 
color have brought new beauty into 
the playhouse, beauty adapted in each 
case to the nature of the drama pro-
duced.

Mr. Hume himself is a leading de-
signer and producer of this style of 
stage craft, and in his exhibition he 
has gathered a number of sketches, photographs, 
designs of scenes and 
outfits showing the latest ideas. 
It is the first of its kind in this 
country, and in it the work of American 
artists as well as that of prominent 
European ones was shown. It has 
been given by Mr. Hume in New 
York, Detroit, Cleveland, Chicago and 
San Francisco.

TECH NIGHT 
(continued from Page One)

President Furtling has chosen "Or-
organized Enthusiasm" as the slogan 
for Tech Night, and with this in view 
he hopes that every undergraduate 
will be present to get into the swing 
of the affair. 

Yesterday at two o'clock it was 
announced that there were one hun-
dred twenty-two seats left on the 
tower floor for the Tech Night per-
formance. The boxes are being held 
for the Sophomore Field Day teams 
and the first two rows in the first 
balcony for the freshman teams. No 
tickets for the team seats will be 
issued except to the managers and 
they will not be held after 2 o'clock 
Friday. Tickets in the special orches-
tra section engaged by the Glee Club 
members must be purchased and 
paid for by 2 o'clock Thursday. After 
this time they will be placed on gen-
eral sale.

The sale of tickets during the two 
hours that the window in Rogers has 
been open has exceeded that of any 
Tech Night during the last three 
years.

SENIOR MARRIED 

The marriage of Miss Marian Chal-
mers of Wellesley, vice-president of 
the Senior Class at Wheston College, 
to Walter Harrison, '16, has been an-
nounced. Miss Chalmers was presid-
ent of the Pyche Club, the leading 
literary organization at Wheston last 
year.

A New 
Model Typewriter!

OLIVER

BUY IT NOW!

Yes, the crowning typewriter triumph is here

It just out—and comes years before experts 
expected it

For makers have striven a life-time to attain this ideal machine. And 
Oliver has won again, as we scored when we gave the world its first 
visible writing.

There is truly no other typewriter on earth like this new Oliver 
"9." Think of touch so light that the tread of a kitten will run the 
keys!

CAUTION!
The new-day advances that come 
alone on this machine are all 
controlled by Oliver. Even our own 
previous models—famous in their 
day—were not as fast as the 
Optional Duplex Shift.

It puts the whole control of 84 
letters and characters in the little 
finger of the right and left hands. 
And it lets you write them all 
with only 28 keys, the least to 
operate of any standard typewriter 
made.

Thus writers of all other ma-
chines can immediately run the 
Oliver Number-9 with more 
speed and greater ease.

17 CENTS A DAY

Remember this brand-new Oliver 
comes at the old-time price. It costs 
no more than lesser makes—new out-
of-date when compared with this 
discovery.

For while the Oliver's splendid 
new features are costly—we have 
equalized the added expense to us 
by simplifying construction.

Resolve right now to see this 
great achievement before you spend 
a dollar for any typewriter. If you 
are using some other make you will 
want to see how much more this 
one does.

If you are using an Oliver it 
will naturally follow that you want the 
finest model.

WARNING!

This brilliant new Oliver comes 
at the old-time price. It costs no 
more than lesser makes—new out-
of-date when compared with this 
discovery.

For while the Oliver's splendid 
new features are costly—we have 
equalized the added expense to us 
by simplifying construction.

Resolve right now to see this 
great achievement before you spend 
a dollar for any typewriter. If you 
are using some other make you will 
want to see how much more this 
one does.

If you are using an Oliver it 
will naturally follow that you want the 
finest model.

TECHNOLOGY ORCHESTRA 
Prospective Plans Formulated At 
Meeting Yesterday.

A meeting was held yesterday af-
fternoon of all men interested in a 
permanent orchestra at the institute 
in the Union. The men out for this 
activity would be incorporated in the 
Tech Show Orchestra the second 
term if they proved themselves capa-
ble.

The Tech Show would be thus 
benefited by having an orchestra al-
ready formed and composed of non-
acquainted to playing with each 
other.

The class of music would be some 
of the lighter symphonies and semi 
classical pieces.

In the near future a call for can-
didates will be issued and a meeting 
held at which Mr. Howard will talk 
the men on the general points 
concerning the founding of an or-
chestra.
