SWIMMING TEAM SQUAD PREPARING FOR MEETS

Good Schedule To Be Arranged—Practice Regularly Held At Y. M. C. A.

The Technology Swimming Team has been practicing during the past few weeks at the Boston Y. M. C. A. tank in preparation for the meets arranged. The first meet which is scheduled with Huntington School, will take place at an early date and, although some good material is out for the Institute team, the training for this meet will necessitate hard practice. Meets have been scheduled with Harvard and Andover, both of which were met last year, and other big college meets will probably be held.

The squad has been picked, but those who failed to make the team are asked by Manager Gould to continue to come out for practice. The following men have been retained: Foster, captain; Gould, manager; Bevis, Bolan, Gay, Maloy, Parkinson, Peltier, Peirce, Root, Untersee, and Whitman.

Announcement is made that there will be no practice held this afternoon.

RIFLE CLUB

Indoor Practice To Start This Friday At South Armony.

After two weeks of enforced idleness, the Rifle Club will resume its practice indoors at the South Armony on Irvington Street beginning Friday of this week.

Permission has been granted to use the Armony on the three drill days, Tuesday, Wednesday, and Friday. As yet the hours are undecided, but will probably be from four to six o'clock. The practice Friday will be held during regular hours.

One only ranges will be in order this week, so that only members whose names have been posted on the Union bulletin board will be allowed to shoot.

There will be a meeting of the Medal Award Committee in room 31A at 8:30, followed by a meeting of the Executive Committee in the Union at 5:00 o'clock.

TECH ORCHESTRA

The Technology Orchestra will hold its regular rehearsal today at 4:15 o'clock.

The management hopes that in spite of the nearness to the holidays all the men who possibly can will attend this afternoon, as Mr. Howard will commence his coaching.

CONCERT NOTICE

General Manager Ford wishes to inform those members of the Musical Clubs who are selling tickets for the Winter Concert that the price of two dollars printed on the tickets applies to single admissions only. The subscription for two tickets is three and one-half dollars.

VARIABLE ACTIVITIES TO BE CATALOGUED

New Scheme Devised By Institute Committee For Listing Activities.

The Institute Committee has authorized the Point System Committee to issue to every activity in the Institute a blank which is to be filled in with all the offices, the names of the officers, date of appointment and number of points, before Wednesday, December 2nd. From these blanks the Point System Committee will compile a card index of every man in the Institute taking part in activities, giving the offices and the points which he holds. This index will be kept up to date by the activities handing in to the committee notices of new appointments and changes in the officers, etc. In this way a complete list of the points of every man will be obtained. The point system ratings may be found in the Tech Bible.

The Committee has not been able to see the proper officer of each activity who is to fill in these blanks. The secretaries of the following activities and the captains of the following teams are to call at the Cage on Irvington Street beginning Friday at 1:30, followed by a meeting of the Executive Committee at 5:00 o'clock any evening.

The Tech is in a position to offer you exceptional values in clothes and shoe trade. See the general manager or treasurer, at 5 o'clock any evening. Apply at once as our offer is good for one month only.

No, Philburt, I am not a-arguing with you. I'm just a-telling you—when you want a real smoke, get behind a pipeful of Tuxedo and watch all the big and little Worries that have been a-besieging you, evacuate their trenches and make a rushin' advance to the rear. Those fragrant whiffs of “Tux” make them feel too joyful—no self-respecting Worry can stand for that.

The combination of the best smoking-tobacco leaf in the world and the best method ever discovered for refining and mellowing tobacco puts Tuxedo in a class by itself.

Kentucky's ripest, mildest Burley leaf, when treated by the original “Tuxedo Process" loses every trace of bite—develops a wonderfully pleasing fragrance and flavor that are not found in any other tobacco.

No other manufacturer knows the "Tuxedo Process", that's why no imitator ever equals Tuxedo!
