THE TECH

Entered as second-class matter, Sept. 15, 1897, at the post-office at Boston, Mass., under the Act of Congress of March 3, 1879.

Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

Office 42 Trinity Place.

FRIDAY, DECEMBER 10, 1915

COMMENCEMENT OF WHOLE-SOME FELLOWSHIP

The Institute of Technology will hold an open meeting for the discussion of the advantages of a wholesome fellowship on Friday, December 20th at 8:00 p.m. The meeting will be held in the auditorium of the South Armory.

The success achieved by the All-Scholarship Union at the recent meeting is a demonstration of clean, enthusiastic interest in the Institute. A more wholesome atmosphere exists today than at any time during the past year, and the members are welcome, as well as all friends of the Institute.

The Central Committee will hold indoor practice at the South Armory from 4 to 6 daily, except Saturday.

MANAGING BOARD.

H. P. Chenoweth, '17, General Manager.

Monthly issues, 10 cents.

Subscriptions within the Boston Postal District, and outside of the United States must be accompanied by postage at the rate of one cent each copy.

FRIDAY, DECEMBER 10, 1915

A WORTHY CUSTOM.

The success achieved by the All-Technology Smoker last autumn can leave no doubt in the minds of those who attended that there is a real need for gatherings of this nature at the Institute. A more wholesome demonstration of clean, enthusiastic loyalty to an Alma Mater, and of genuine, whole-hearted fellowship would be hard to conceive. May the memory of William Barton Rogers be perpetuated by holding each year an All-Technology Smoker to keep before the eyes of Technology men the ideals of this great institution and the possibilities of mutual benefit which can be realized when "good fellows get together."

CLASS ELECTIONS IN MAY?

There was placed before the Institute Committee yesterday afternoon for consideration at a future meeting the question of the advisability of changing the class elections from October to May. The suggestion is in accordance with the practice of practically all Institute activities and societies and seems the only logical way for the classes and the Institute Committee with all its various branch committees to efficiently conduct their business. The change would be a radical one, however, and it deserves the considerate thought of the whole undergraduate body. Any communications expressing reasons for or against the proposed change would be very acceptable in aiding the Institute Committee to decide on the plan which will in the end prove most satisfactory.

DRAMATIC RECITAL

The Technology Christian Association has secured Mr. Edward A. Mend of New York to give a dramatic recital of "Damaged Goods" on Monday, December 20th. This event will be held in 6 Lowell at 4:30 o'clock, admission being free. The play is in the study of the great red plaque and its bearing on marriage.

The power of vivid narration and dramatic action is too vital and important to be neglected by the school; it should be employed seriously and with a purpose other than that of ordinary entertainment, according to authorities. Mr. Mend is making a worthy and highly successful effort in this direction and it is gratifying to all workers for social betterment to see that he is seeking to do and gain a hearty response on the part of the public, the press and the pulpit.

COSMOPOLITAN CLUB

To Hold Smoker Tonight—Faculty Speakers Announced.

This evening at 8 p.m., the Cosmopolitan Club will hold a smoker in the Union. The speakers will be Professors F. J. Moore, L. J. Johnson and W. T. Hall of the Institute; they will speak on various phases of student life in German universities. Club members are welcome, as well as all foreign born students and those who have attended German schools.

CHEMICAL SOCIETY

Today at 1:15, a special car will leave Copley Square for Watertown, where members of the Chemical Society are to visit the works of the Hood Rubber Company. Those who have obtained tickets from R. H. Miller should meet in the Union for the start at that time.

If a man wants to "stand out in a crowd" he doesn't have to act peculiar. He can be out of the ordinary, the way VELVET does it—by being always kind and cheerful, an' honest.
