NAVAL ARCHITECTURAL SOCIETY DINNER
T. R. Goodwin Will Describe Experiences On Board Yawl "Seabird."

There will be a dinner given by the Naval Architectural Society tonight at 6:00 o'clock in the Union, Mr. T. R. Goodwin, of Providence, will tell of his experiences with two other men on board the 250 foot sail boat "Seabird." They will tell of a three horsepower auxiliary motor for which kerosene was carried as a bonus because it would prevent any danger from explosion.

TRACK STATISTICS
Coach Kanaly Makes Report Showing Results Of Fall Work.

Mr. Kanaly has prepared numerous interesting statistics showing the regularity with which the men report for track during this last fall, also the physical improvement which resulted from this work. These statistics were taken from carefully compiled daily records of all the men who were on the track list. Of the eighty-six men taking track until Field Day, fifty-two gained a total of fifty-nine pounds. The other thirty-four lost a total of fifty-six pounds, three ounces, making an average gain for the entire squad of about eight ounces.

The men report for Varsity Cross Country repeated more regularly than any others. Young, Brown, captain of the team.

STAGE COMPETITION
This afternoon at 5:00 o'clock a meeting of candidates for First Assistant Stage Manager of the 1916 Tech Show will be held in the Show Office. This competition is open to Sophomores only, and one of the requirements is that the candidate must be able to take the necessary steps and get the necessary material into the hands of the Department. One of the successful candidates will automatically be promoted to manager of the department next year, provided his work during the season has been satisfactory, and he will be one of the four junior candidates recommended for the office of General Manager of the 1918 show. The other of the two candidates chosen will become Stage Manager of the Show.
