A New Model Typewriter!

The No. 9

The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here!

It is just out—and comes years before experts expected it!

For makers have striven a lifetime to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

17 CENTS A DAY

Remember this brand-new Oliver "9" is the greatest value ever given to a typewriter. It has all our previous special inventions—visible writing, automatic spacing, 6½-ounce touch, plus the Optional Duplex Shift, Selective Color Attachment and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTYPE, that will make you run the keys like print, included FREE if desired.
