ALUMNI BANQUET
(Continued from Page Five)

has contributed something to this great epoch, and feels that it is partly his own creation. "The man who makes a sacrifice to give $10 contributes more than he who gives a million out of his abundance. Technology, has before it, now the greatest opportunity of any educational institution in America. It will have the most up-to-date plant in the country. It has prestige and reputation second to none. It has a well-organized and professional faculty. It has an afiliation with the oldest and best-known university in the country, which, I believe, will take nothing from the application and concentration of purposes for which M. I. T. men are famous, and will result in their dominating the greater human interest and broader point of view which the university life gives. And, above all, it has during its half-century of existence developed a remarkable spirit-of-corps among its students which carries them into their work with a degree of enthusiasm that few colleges have been able to attain.

"America today has the greatest opportunity open to her of any nation of the world. She has the highest-intelligently populated; she has money; she is at peace. The universities in the warring nations are embattled. We know the great universities in Germany and France have done to make those nations more efficient in science, and art, and war as well. Many of these universities have stood high in the esteem of all nations; but the way is now open to the United States through the new M. I. T. to surpass those nations and the world, and I am sure that the alumni, the faculty, and the corporation will see to it that this result is attained."

H. P. Claussen, coming into lower offices in usual frenzy—"Throw out all those little number one stories."

Need a reliable fountain pen? The Tech has a limited number of Moore's Non-leakable pens to sell. Call at the Tech office at 5 in the evening and learn our mutual benefit scheme of buying suits, shoes and fountain pens.

A New
Model Typewriter!

The
No. 9

O L I V E R

The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here. It is just out—and comes years before experts expected it.

For makers have driven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver. "Think of touch so light that the tread of a kitten will run the keys!"

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hand. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9," with more speed and greater ease.

WARNING!

This brilliant new Oliver comes at the old-time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction.

Resolute right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver it naturally follows that you want the finest model.

17 CENTS A DAY

Remember this brand-new Oliver "9" is the greatest value ever given in a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 6.5 ounces weight—plus the Optional Duplex Shift, Selective Clog Attachment and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.
