MUSICAL CLUBS HAVE A SUCCESSFUL TRIP

The midyear trip of the musical clubs was a great success socially, if not financially. The men returned feeling that they had had a very interesting and worth-while experience.

The party left for New York by the Pullman Line on Sunday, January 20, about two-thirds of the men being there, the others having gone on ahead.

At 6.30 p.m. they left for Montclair. The first concert was the organ recital of Mr. Alger Mead. The others having gone on the Fall River Line on Sunday, January 20, about two-thirds of the men being there, the others having gone on ahead.

At 6:30 p.m. they left for Montclair. The first concert was given by the Rotarian Club. The concert, which was given that evening at the New Century Club under the auspices of the Technology Club of Philadelphia, went off very well. The blame for the smallness of the audience may be laid to the weather, which was still bad.

The next day they proceeded to Schoenadty by way of Albany, where they had the chance to make a tour of the Metropolitan Museum of Art on account of bad connections. The concert was given by the Bachrach Club. The attendance was fair, and the dance afterward was very agreeable.

Next after Schoenadty was Pittsfield. Here the men were entertained at the Country Club and other places. The concert that evening was at the Pittsfield YMCA. Parties were passed out, and after the concerts the men lost their way.

RIFLE TEAM WINS

Results of First Intercollegiate Match Announced.

Technology's indoor rifle team started its intercollegiate matches about the middle of January, and since then has been practicing regularly, and taking part in weekly matches. The targets are sent to the National Rifle Association, and the statistics cards have been handed in, but the four year men seem very reluctant to loan characteristics of themselves. They have not had in hand the official scores of the first match, but the team, after a losing season, is now improving and is expected to win the championship.

PROFESSOR C. F. ALLEN TO RETIRE THIS YEAR

President Mead in an announcement of the retirement of Professor C. Frank Allen, who has been a member of the faculty of the College for thirty years, expressed great regret at the loss of his services, and extended to him the best wishes of the students.

Professor Allen, who has been connected with the College for thirty years, is well known for his ability in the field of electrical engineering, and has been a member of the American Institute of Electrical Engineers for many years.

TECHNIQUE SIGN UPS TO BEGIN TOMORROW

Board Aims For One Thousand

Sales by March 1—Book Well Under Way.

Tomorrow morning Technique 1917 will start a systematic sign-up campaign, with the object of over a thousand sales by March 1. The Board plans this year to keep the institute acquainted with the progress of sign-ups, and to give a report of the actual number of members who have signed up at the end of each week, in order to keep the staff informed of the progress of the campaign.

The price of the book is to be the same as in the past few years, two dollars and seventy-five cents per volume, of which seventy-five cents are paid as a deposit when the sign-up is made. It is hoped to make the sale of the book profitable, and the Board will be pleased to see a large number of members sign up.

C. E. SOCIETY

Ralph Adams Cram Will Speak On Trades Guilds.

The Civil Engineering Society will hold the first meeting of the second term on Friday evening, February 17, at the Union. The society has secured as the speaker of the evening, Mr. Ralph Adams Cram, the head of the Architectural Department of Princeton University, and a recognized authority in this country on ecclesiastical architecture especially that of the Gothic type. He will address the society on "An Architectural and Engineering Experiment." The "experiment" is the building of a church near Philadelphia which is being erected under the supervision of the firm of Cram & Ferguson. The work on the church is being done in the manner of the old English Trades Guilds of the middle ages.

The talk will be preceded by a number of lantern slides which Professor Cram will exhibit.

The Society will provide free smokers and refreshments for all present. Members of the Society have been invited to attend the meeting.
