WRESTLING MEET
(Continued from page One.)
A close score. Comparatively little is
known about Tafy, Mcguy, Datis, or.
Trinity as they have but recently
taken up wrestling. They all have
a few stray men, but they will prob-
ably not show up well as teams.
Technology’s full team of seven
men will consist of the following:
115 lbs. F. Y. Loog, 125 lbs. J. W.
Rommes, 135 lbs. E. A. Hoffman or E.
P. Gillette, 140 lbs. M. Moore, 150 lbs.
H. L. Wirt, 175 lbs. J. M. Todd, and
 unlimited weight B. L. Sache. Of
Technology’s entries, Loo has the best
chance of winning. He has met and
gained most of the 115 lb. men in New Eng-
land and should make a good show-
ing in the meet. His toughest op-
ponent will be the Yale 115 lb. man who
holds a win over the Navy 115 lb.
man to his credit. In the 125 lb.
class Rommes made a very good show-
ing until he was unfortunate and tore
two tendons in his right shoulder. He
will probably not be in his best shape
in the meet, but nevertheless will be a
man to reckon with.
In the 130 lb. class Technology has
two strong men in Gillette and Hoffman.
Both are strong and rugged and either
should make things warm in their class.
He is a new man on the team
this year and can be relied upon to
do dependable work. Todd and
Sache, Technology’s two heavy men,
form the weakest part of her team.
Both are new at the game, but con-
sidering their experience, have done
very well.
Harvard is holding this big Inter-
collegiate meet in order to encourage
the formation of an Intercollegiate
Wrestling Association. This Associa-
tion at the present time is well un-
der way. Harvard is offering indi-
vidual medals for the winners in each
of the seven classes and also a cup
for the team prize.

WIRELESS SOCIETY
Mr. H. W. Lamson And A. F.
Murray ‘18 Give Short Talks
The first meeting of the term of
the Radio Club was held last Thurs-
day afternoon. The occasion opened
with a business discussion. G. D.
Speare ‘17 was elected treasurer to fill
the vacancy caused by the resignation
of H. C. Clayton ‘17. The telephone
head set belonging to the club has
been taken from the room without
the permission of anyone and after a
vigorous discussion it was decided to
place the matter in the hands of the
executive committee.
Mr. H. W. Lamson discussed the
modern audition, illustrating his talk
with drawings. He explained the
principle of the instrument, showing
the normal conditions for maximum ef-
ciency as well as methods for using
both as an audion and crystal detector
in the circuit. He elaborated on an
article written by Mr. Lamson in the
Bulletin of the Institute of Radio Engineers by
Professor Pratt of the University of
California who has conducted re-
search work along these lines.
A. F. Murray gave a very practical
talk on quantitative experiments
which have been carried out recently
by members of the club at the Oas-
town House. E. R. Smith, head of the
Radio Inspector, has placed various
instruments as well as the use of his
antennas, which runs from the top
of the tower to the seventh story, at
the disposal of the society.

If Smoking
interferes with your business don’t give up either—it
simply means that you’re not smoking the right
tobacco.

Now, Tuxedo is heavily charged with just the
spunk, sparkle and pep you need to fit you to walk
right up to your business cares and dispose of ‘em like
a curly wolf disposes of a lamb.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo is the right brand for the man who wants the
full flavor and rich rich of Berley leaf—and that brisk,
quick-step animation you puff through a pipe stem when
“Tux” is in the bowl.

And it’s the right brand for the man
who wants to smoke effusively than once in
a while. Go as far as you like with “Tux”
—smoke it all day—the original “Tuxedo Pouch,”
tasted only in Tuxedo. Take all the
bite and parch out of the leaf and leaves it
mild, smooth and pleasant.
