"SOMEONE has been told that the T. C. A. Talk of March 24th was a failure. To hit this impression, there are some 1900 men at Technology. At a recent athletic event, the triangular gym meet between Harvard, Dartmouth, and Tech, there were over 200 spectators present. At least 5 of them were Tech men. Who knows why they came? Likely some of the other 1954 had work to do that night, or at any rate they were not interested enough to support it in a small way an from which is to say that the Gym T. C. The remarks in question were that the Gym Team and its management, that nothing but a full column on the front page of "The Tech" would satisfy them. No, that is not the case. What the Gym Team also wants is the truth about its doing and not such hashed up article which does everything but convey the right idea.

A Tech husker was given the result of the recent Gym Meet. The Tech kindly distorted this to suit the place they had, but with the fact that the article was worse than useless in so far as the truth was concerned. The last Tech could have done much of courtesy to Brown would have had been to mention the wonderful all around man of Captain Matthias, who, by winning first place on the horizontal and parallel bars, second place on the rings, and third place in tumbling, practically won the single-hander for his team. This article failed also to mention Y. M. W. C. A., diffusion, G. W. A. Inglis, '93, who won another place on the parallel bars and the side horse.
