FIVE DOLLARS CASH: REWARD OFFERED FOR TITLED

One point was not made clear in the announcement of the Cash Prize contest, made in Wednesday's issue of The Tech. One contestant may send in as many titles as he wishes, but each of his entries must be written on a separate piece of paper, and each must bear his name, course, year, and address.

The contest is open to all members of the graduating class, and the names of all contestants have been posted in the student hallways.

Five dollars cash: Reward offered for titled.

CITY OF DALLAS WORKOUT

Thursday afternoon at 4.50 o'clock, Techmology crew candidates held their first practice of the year in the R. A. A. Boat House. At the Boat Club meeting which was held last Wednesday there were a great many rowing enthusiasts in attendance, but only ten of this number showed up at the practices. Only a light workout was given Thursday; the old seats being used in the rowing machines, while the new men were given instructions during the hour.

Manager F. M. Elliott is planning to have the crew figure in the national regatta this year.

SOPHOMORE BASEBALL

All candidates for the Sophomore baseball team are reported by the manager to report at the gym with clubs at 3 p.m., on Friday. From now on there will be daily practices at that time, the first game being held in three weeks.

FRESHMAN BASEBALL

There will be a meeting of the freshman baseball team at the Gymnasium this afternoon at 3 p.m., under the direction of Manager Dinlson. All candidates are requested to report for a short preliminary workout.

INSTITUTE COMMITTEE HOLDS DISCUSSION

Advisory Of Adopting Honor System at Tech. 1916 is Questioned

A meeting of the Institute Committee which all Techmen are invited to attend will be held on Saturday afternoon at 2 p.m. for the purpose of discussing the advisability of adopting the Honor System at Tech. The committee should first recommend the advisability of adoption to the student body, or whether it is desirable to vote by the entire college whether or not the Institute as a whole should adopt the system. It was finally decided that the best way would be for the committee to first determine whether the system could be favorably adopted, and then put the matter before the Institute as a whole.

Allen Abrams T., who was so kind as to offer suggestions for the rules under which the Honor System should be managed, said that at least 122 colleges of the United States have already adopted the system and he found it advantageous in regulating the affairs of his own class at the Massachusetts Institute of Technology, Revere Polytechnic Institute, Lehigh University, Yale, & Columbia. William colleges are the best known in the undermentioned dual system of honoring a student, and it was further stated that a system under which nothing is to be given to those who do not belong in the upper classes, and are just beginning their college career, is to be condemned. It was further stated that a system under which nothing is to be given to those who do not belong in the upper classes, and are just beginning their college career, is to be condemned.

Abrams further stated that two weeks ago he was invited by a friend to give some of his names which he wished the students to take and then that he had wondering about what the system would be like with the names withheld. It was further stated that a system under which nothing is to be given to those who do not belong in the upper classes, and are just beginning their college career, is to be condemned.

New Method of Conducting Rehearsals

The Soil Science Club and the Techmology crew candidates have adopted a new method of conducting rehearsals which is said to have been found it advantageous in regulating the affairs of their respective classes. The new method is said to be more effective in keeping the students in line and in preventing what is known as "misunderstanding" in the depression of the season.

WHAT IS THE TITLE?

The Boy Scouts of America are known as the 'Scout' revolutionaries' in their campaign for the adoption of the Honor System at Tech. The first of these forms a standard of conduct, year, and address, in developing the character of the student body. It is further stated that a system under which nothing is to be given to those who do not belong in the upper classes, and are just beginning their college career, is to be condemned.
