REUNION SMOKER (continued from Page Two)

night a song, the premiere of 1916, written by I. B. McDaniel, '20, especially for the occasion, and which will be sung at the Reunion by the University Glee Club. The song tells a story of two former students who have come back to the old University, where they have grown into men, and have gone a good way toward realizing the ideals of the alma mater. The chorus of the song runs as follows:

At that Reunion
You'll see every one;
They will be coming back here,
They all will be here.

To join in the fun;
For a week the city is ours.

To do as we please
No matter the hour.

It's Dedication;
And everybody knows
You will have the time of your lives
With the Alumni wives singing.

Chorus
Technology, we truly love;
The Cardinals and the Gray;
And when this June comes rolling round
All will join the brand.

Your buildings new;
We will wonder through;
And loudly ring your praises,
Technology, our alma mater;
Technology, our alma mater!

Hail! Hail! Hail!

This song was then sung by the whole gathering, accompanied by the orchestra. Afterwards, the freshly appointed Professor Miller, of the department of Mechanical Engineering, A.M., gave a speech in which he congratulated the students on their work in the past, and wished them success in the future. The big item of the evening was a program of songs, in which the students were to participate. The program consisted of about ten songs, and was well received by the audience. The last song of the evening was the Alma Mater, which was sung with great enthusiasm. The song was followed by the presentation of the class of 1916 with the class of 1917. The class of 1916 presented the class of 1917 with a beautiful model of the new dormitory, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new engineering building, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new library, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new gymnasium, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new athletic field, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new football field, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new baseball field, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new track, which was to be erected in the near future.

The evening ended with the presentation of the class of 1916 with the class of 1917. The class of 1916 presented the class of 1917 with a beautiful model of the new dormitory, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new engineering building, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new library, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new gymnasium, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new athletic field, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new football field, which was to be erected in the near future. The class of 1916 also presented the class of 1917 with a beautiful model of the new baseball field, which was to be erected in the near future. The class of 1917 presented the class of 1916 with a beautiful model of the new track, which was to be erected in the near future.
