THE TECH

THE TECH, BOSTON, MASS, WEDNESDAY, MARCH 25, 1916

COMMUNICATION

To the Editor of The Tech:

That true socialism embodies a vast, indeed, vital literature, mean people are willing to admit. The students of Technology, being on the whole liberal minded, are willing to grant that the T. T. Forum, as a Socialist organization, has offered some desirable ideas. One is, of course, free speech. But the T. T. Forum has no right to compel anyone willing to listen to it if such is not their desire. It should not, therefore, conduct its meetings in a place where the majority of persons do not wish to be. The characteristic Socialist utterance is a place, in fact, in which such appears to be the case. There may be humor in some phases of Socialism, especially those with a military nature, but there is no recreation; rather the reverse. The Forum, therefore, in its speeches in Walker, or in Lowell, to which places all, including Mr. Betcher, who yearn to bear its smaller auditors may flock with the greatest of gusto.

If this project be not feasible, why not reserve each room for the week as follows: Monday to the Officers Club, Tuesday to the Forum, Wednesday to the Catholic Club, Thursday to the T. C. A., Friday to the Monarch Society, and Saturday to the Brotherhood of Andrew. If, however, the old plan of having only one speech a week in the Union under the auspices of the T. C. A. be generally considered unsatisfactory, shall it be well if that association occasionally invited a speaker designated by each of the above-mentioned societies in turn? This would be a broad-minded policy for organization whose field of action is distinctly broad.

JAMES A. TOBEY.

JOBS IN NEAR EAST

Second Lecture By Mr. Brewer Eddy Thursday

Mr. Brewer Eddy will give the second of a series of lectures on "Jobs Foreign Lands," tomorrow at 5:00 o'clock in 23 Walker. His topic will be "China," and the deal especially with reconstruction in China after the war.

Mr. Eddy, the brother of G. Sheridan, who accompanied him on a conference last year, is connected with the Board of Missions, and has made a study of engineering conditions in the near east.

SUMMER CAMPIERS GATHER FRIDAY

Members Of Faculty To Address Machinists Dwellers At Camp Reunion

Friday evening, March 21, the students who attended last year's Summer Camp at East Machias will hold their annual reunion and dinner in the Union. Practically all the campers have signaled their intention of being present, some of them going so far as to aver that even a badger fight would not keep them away. "Pabst Colton has last several nights been devising an original motive, and the committee has secured a novel entertainment in the appearance of a well known famous Summer Camp Minstrels. It is also rumored that Professor Breed has saved up for this occasion a fund of stories similar to those "at Camp last summer, and that Professor Howard will give the "bones" achieved while running the railroad—also that he will impart some advice of a greatly needed sort, if not sufficiently appreciated, sort.

SHOW REHEARSALS.

The rehearsals of the Show for the past week will be shown. This afternoon the ballet will rehearse at 2:00 in the Union Dining Room.

Friday the cast will rehearse scenes three and seven at 3:00 o'clock, and scenes four and eight at 5:00 o'clock, in 6 Lowell. The chorus will rehearse in the Union Dining Room at 6:00 o'clock.

Saturday the entire cast will rehearse at 2:00 o'clock in the Union Dining Room.

Sunday the cast, chorus, ballet and orchestra will rehearse at the Shubert Theatre, 284 Tremont street, beginning at 9:00 o'clock in the morning.

CORRECTION

P. A. Parker, '19, was appointed to the Union Council at last Thursday instead of D. E. Parker, '17, as announced in the Annual Reunion and Dinner in the Union. Practically all of the campus and general uninterested interest among the students. The mass meeting is held in Huntington Hall Thursday night and gives a splendid opportunity for Technology men to see just how far they have acquired the scientific attitude by attending this meeting, answering the facts, and then drawing their conclusions. Any man who goes there with any preconceived notions is not a true scientist, and when it comes time for him to render his opinion to the audience, he has not thought it over and has no recreation; rather the reverse. Let the Forum, then, have its speeches in 23 Walker, or in Lowell, to which place all, including Mr. Betcher, who yearn to bear its smaller auditors may flock with the greatest of gusto.
