SCHOOL OF PUBLIC HEALTH

Many Notables Studying Sanitation at Technology.

School for Health Officers, of which Dr. H. W. Childs is chairman, which was organized at Cambridge last summer, has in the course of a few weeks attracted the attention of public officials, and has been the subject of engrossing interest. As the result of the interest shown, it has proved to be a great success. The school has been attended by a number of students, and a large number of health officers have been enrolled.

Vacancy on City Council Caused by Death of Member.

The Boston City Council has lost one of its most influential members, C. W. Childs, who died recently. He was a man of great ability and was well respected by his fellow citizens. He was a man who always had the public welfare at heart and was always willing to do his best for the people. His death is a great loss to the city and will be deeply felt by all who knew him.

Sewer Board Takes Action on Street Drainage.

The Sewer Board of the city of Boston has taken action on the matter of street drainage. They have decided to make a survey of all the streets in the city and to improve them as much as possible. They have ordered the work to be done immediately and have given the contractors a firm contract to do the work.

Admissions to the School for Health Officers.

The School for Health Officers has received a large number of applications, and it is expected that the school will be well attended. The classes will be held in the evenings and will be conducted by experienced health officers.

Nestor of the Student Body.

The enthusiasm with which this activity has been received by the student body is evident. The school has been well publicized, and the fact that it is being conducted by experienced health officers will be a great advantage to the students.
