exceed the cost of the garrison ration prescribed for the Army, as may be fixed by the Secretary of War. Such a student must signify in writing upon entering this corps his intention to continue the training throughout the remainder of his course at the institution and that he will attend the courses in camp training prescribed by the Secretary of War.

Upon graduation from this second course in the Senior Division, the student may be appointed by the President of the United States to membership in the Officers' Reserve Corps, provided he is twenty-one years old and will agree, under oath in writing, to serve the United States in the capacity of a reserve officer of the Army during

a period of at least ten years from the date of his appointment.

The President is authorized to appoint and commission a member of the Officers' Corps as a temporary second lieutenant of the Regular Army in time of peace for purposes of instruction for a period of six months. During his service in this capacity he will receive training in regular army work and he will be paid \$100.00 a month.

This year two tool wagons, containing complete carpentry, demolition, reconnaissance, and photographic equipment, together with block and tackle and cordage, will be furnished to the Technology unit. As far as practicable, hikes will be taken to get the experience of working with the tools furnished.

Captain Downing hopes that during the course of the year lectures may be given on such subjects as "Military Roads," "Construction of Bridges and Ferries," and "Permanent Land and Seacoast Fortifications."

The organization meeting will be held in Room 10-250 Friday at 4.00 o'clock and will be open to all men who are interested, including freshmen. Captain Downing and Major Cole will outline the work for the year and answer any questions which may arise.

Captain Downing states that the number of men who attend this meeting and the spirit with which the project is taken up will be a determining factor in showing the government Technology's attitude towards such an organization. If a large number of units can be organized, the equipment will be proportionately augmented and the efficiency of the whole body will be increased.

**FRESHMAN CROSS-COUNTRY.**

On account of the holiday on Thursday, the meeting of the freshmen out for cross-country will take place this afternoon at 4.30 o'clock at the field, instead of as previously announced.

more spontaneous—less thought out, as it were. The first to materialize was an inky-fingered editor of The Tech, who exclaimed, "Gee, they set those names just like a No. 1 head," and hurriedly copied them out for a football lineup. A Course IV man merely rushed off wringing his hands and shouting, "Shades and Shadows of E. C. & A.," while one, whose rumpled hair and reddened eyelids testified to his membership in the Morgue Anti-Slumber Society, broke down and wept. But the really dominant comment, the decision of the thinking men of true esthetic feeling, was "Why don't they have cushions around the edges of the Court?" to which, at least from The Lounger's point of view, no answer could be found.

**\$1,000**

Must be raised by Technology Undergraduates before the 15th of October. The success of athletics depends absolutely upon your contribution. In past years Technology has been represented in college athletics, meeting the strongest teams in track, hockey, wrestling and swimming. This representation was only made possible by the raising of finances through the efforts of undergraduates, and hearty cooperation of alumni.

THE ENTIRE BURDEN OF FINANCING TECHNOLOGY ATHLETICS NOW FALLS UPON THE STUDENTS

**\$1,000**

Is estimated as the smallest amount necessary by contribution. The failure of the Blanket Tax last year shows the seriousness of our problem. Are we to be represented on the track field, in the hockey rink, on the wrestling mat, or in the swimming tank?

EACH UNDERGRADUATE MUST DECIDE THAT QUESTION

Technology is one of the few colleges which has not self-supporting athletics, or a compulsory athletic tax. How can we finance our teams?

BY YOUR CONTRIBUTION

Secure an athletic button at once. It tells the story and you have done your part.
