forward pass, but failing to kick the goal. It was during this quarter that the dispute took place which caused the riot. The police were called and after the crowd was forced off the field, the game continued, the Sophomores being unable to score after the fifty-yard penalty. The score at the end of third quarter, Sophomores 13, Lynn English High 6.

The last quarter started with bitter line smashing for both sides, Lynn scoring a touchdown, making the score 13 to 12 with three minutes to play. The Sophomores lined up behind the goal posts, and after playing the kick, which was wild, started for the clubhouse. They were called back by the referee, who gave Lynn another try at the goal, charging offside play by the Technology men. A dispute ensued which made police protection necessary. The offside decision was, however, not reversed and the Lynn English kicker tied the score with a ball between the posts.

Contrary to the dope which has been circulating through the Institute that the Sophomores would lose at the hands of Lynn English, 1919 showed up extraordinarily well. The Sophomores went to Lynn with only thirteen men. All the season the 1919 team has been handicapped by the lack of material, it being a rare occasion when enough men were present to hold a scrimmage. Great credit is due those second year men who have been working hard all season in spite of the opinion of the whole Institute.

The lineup of the Sophomore team was as follows:

Right End, Rasmussen; Right Tackle, Hunt; Right Guard, Strowbridge; Centre, L. Falkenberg; Left Guard, G. F. Falkenberg; Left Tackle, Shippey; Left End, Bruno; Quarterback, Davis; Fullback, Thomas; Right Halfback, Merrill; Left Halfback, Haverty.

**PASSES NEEDED**

In order to be admitted to the Institute Buildings at other than the regular school hours it will be necessary to obtain passes from Bursar Ford. All men on the Activities who wish to work in their offices after hours or on holidays, should obtain their passes from the manager of their activity.

**CORPORATION XV.**

Corporation XV, the Professional Society of Course XV, will hold its first formal meeting Tuesday night in the Cafeteria. The Society was established last spring by the present Senior class in the Course. The By-Laws provide for the admission of Juniors.

The present members of the Corporation XV are very desirous of having all Juniors in the Course attend the meeting Tuesday night. Extensive plans have been made for entertainment and the meeting will be called promptly at 7.30 o'clock in order to insure an early departure.

be so called in a lower grade than that held by him in this corps. In time of actual or threatened hostilities, the President may order members of the Officers' Reserve Corps, subject to physical examination, to temporary duty with the regular Army, or as officers in volunteer or other organizations that may be authorized by law, or as officers at recruit rendezvous and depots or on other duty. They may be promoted to vacancies in volunteer organizations or to temporary vacancies in the regular Army and while on such service, they will be entitled to the pay and allowances of the corresponding grades in the regular Army.

A graduate from a college or educational institution to which an officer of the Army or Navy has been detailed as superintendent or professor pursuant to law, will be required to present a diploma or certificate showing the amount and character of theoretical or practical training which he has satisfactorily completed.

For appointment as an officer in special service, the candidate need pass neither an oral nor written examination but must submit evidence of his actual employment in corresponding or higher positions in civil life and references to persons under whom he has been employed. Such commissions are open to bridge, constructing, electrical, highway, mining, railroad, sanitary and topographical engineers.

The duties of such engineers would consist of reconnoitering and surveying for military purposes, including the laying out of camps; the selection of sites and formation of plans and estimates for military defenses; the construction and installation of electric power plants and electric power cables connected with sea-coast batteries; the construction and repair of military roads, railroads and bridges; and military demolitions. In time of war within the theater of operations, they would have charge of the location, design and construction of wharves, piers, landings, storehouses, hospitals and other structures of general interest, and of the construction, maintenance and operation of railroads under military control, including armored trains.

A place there is in Cambridge famous,  
To which we go for breakfast late;

The Oak Grove Cafe its name is:—

Clean service, quick and up-to-date.

Corn Rolls, delicious, brown and steaming;

Hot, savory coffee, golden toast—

With things like these their menu's teeming;

"We serve the best,"—our proudest boast.
