JACOB MASTERS' COURSE IN CHEMICAL ENGINEERING

New School of Practice Offers Advantages Towards Development of "Potential" Engineer—Five Years of Instruction

SCIENCE LINKED TO INDUSTRY

With the beginning of the school year 1917-18 a new course was installed at the Institute, which was founded throughout the schools of science education as the most important step beyond the present preparatory training that has been ever made. Harvard, Boston, and the Institute of Chemical Engineering of the Technological Center for Chemical Engineering Practice and competition is likely for students taking Chemical Engineering. All the Institute's successful alumni, who have shown by their practice, that they are fitted for a further course in science and research are eligible for the New School of Practice.

The work is carried on in 26 different instruction centers established by the business. The student, desiring admission to any of the centers, must apply in writing and accompany his application with a statement of the course of instruction he desires to follow. This statement must show that he has a background of work suitable for the proposed course.

The center at a whole has been successful and is now well on its way. The Institute of Chemical Engineering was established at the center.

FINANCE COMMITTEE DINNER

The Finance Committee held dinner on Thursday evening at the "21" Club in this city.

NEW ENGLAND CONSERVATORY OF MUSIC

The New England Conservatory of Music in Boston is one of the leading schools of music in the United States. It was founded in 1867 by Daniel P. Burnham.

The conservatory has a faculty of over 100, including many well-known artists and teachers, and a student body of more than 1,000. It offers a wide range of courses in music, including piano, violin, cello, viola, and voice. The conservatory also offers a variety of performance opportunities, including concerts, recitals, and chamber music performances.

The conservatory is located in the heart of Boston, on Newbury Street, just steps from the Boston Public Library and the Boston Symphony Orchestra. It is easily accessible by public transportation. The conservatory is a vibrant community of musicians, with a rich cultural history.

The conservatory is also home to the New England Conservatory Preparatory School, which offers music education for students of all ages. The conservatory is committed to providing a high-quality education in music, with a focus on developing the skills and talents of its students.

The conservatory is a leader in music education, and is dedicated to fostering a love of music in its students. It is a place where students can experience the joy of making music, and where they can learn the importance of hard work and dedication.

The conservatory is a wonderful place to be, and is a must-visit for anyone who loves music.
