Circulation Manager—4.00 to 5.30, except Saturday.

WEDNESDAY, DECEMBER 6, 1917

ATTENTION FRESHMEN

The Institute offers four-year courses in fifteen branches of engineering. After the Christmas vacation your first year will be obliged to register your choice and in this section should show thorough care in your selection.

Looking to the future. It is infinitely more satisfactory to know that you are performing work that is congenial to your nature than to be bound to a subject which your interest is lagging. Study the catalogue and weigh the relative value of the courses in your own estimations. Does chemistry have a stronger appeal than electrical engineering or is public health work your particular sphere? With the wide range of studies provided it is easy to make a costly mistake unless a serious effort is made to start on the right path.

The departmental heads have appointed certain hours in which you may see them at the office of your choice.

The departmental heads have appointed certain hours in which you may see them at the office of your choice.

NOTICE TO FRESHMEN.

The catalogues and lists of courses, the departmental heads, and the Managing Editor for the matter in which they are interested.

ATTN.

All secretos submitted will be repeated in the glorious new Institute that will be raised, stands as a model of accessorv-before-the-fact mod-
