WRESTLERS' SCHEDULE FULL

With the first meet of the season on Jan. 6, the Technology wrestlers are holding daily practise on the mat in the basement of Building 1. The team has been aided by several good new men in all except the heavyweight class, but the management is looking forward to a successful season.

For the varsity the following men have been chosen—115 pound, Bone and McFarland; 125 pound, Rounds, Captain; 135 pound, Hoffman, McMoran and Shields; 145 pound, Kiley, Hodgson, Nangle and Hunt; 158 pound, Wirt and Wood; 175 pound, Todd.

The schedule for the coming season has been filled with the exception of one date. The list follows:

Jan. 6—Tufts at Medford.
Jan. 13—Brown at Providence.
Jan. 27—Lehigh at South Bethlehem.
Jan. 29—Penn. State at State College.
Feb. 2—Pittsburg at Pittsburg (pending).

Feb. 3—Intercollegiate.
Jan. 10—Harvard at Harvard.
Feb. 17—Springfield Y. M. C. A. College at Springfield.
Feb. 24—Open.

The second team will have a bout with Andover on Feb. 10 at Andover.

TRACK WORK AT STAND-STILL

Track work has practically come to a stand-still. The new board track promised by the Institute has not been built, and until it is, practice on the football field will be held to condition new men and fill up freshman gym periods. Coach Kanaly hopes that the new track will be here by the time the Christmas recess is over. He then plans to hold a meeting of all interested in track, that will be "the biggest ever." At this meeting, that will be so arranged that everyone can attend, plans for the coming indoor season will be unfolded, and an urgent call for candidates will be issued. Notice of this meeting will be given in a future number of The Tech, and everybody who is at all interested in this activity is especially requested to be present.

FENCERS TO MEET

Some time next week a meeting of all men interested in fencing will be called for the purpose of discussing plans for a place to practice and other essentials. During the last few days, several more men have signed the list in the basement of Building 1, so that prospects seem bright for a successful organization. Some equipment, such as foils and masks, is already on hand, so that the initial expenses should be fairly low. If a few more students sign up practice can be started shortly.

DR. LAIDLER TO SPEAK

On Tuesday, Dec. 19, at 1.30 P. M., Doctor Laidler will address the M. I. T. Forum on the subject of the increased cost of living. Everyone is invited.

E. E. SOCIETY HEARS TALK ON AVIATION

(Continued from page 1)

lowed to control the machine for a short time. The pupil is then sent into the shop where the mechanical and theoretical side of aviation is studied. A civilian would best get his start in the schools of the manufacturers of machines. He may then take the government examination, and in case he is accepted and proves successful his tuition at the school is refunded and he is given the same instruction as the regular army men receive.

Captain Gorrell then sketched a brief history of flying. He said that the United States was the pioneer in aviation. In 1906 the Wright brothers made their first flights and soon after their machine was purchased by the government for use in the army. Since that time, however, foreign countries have far outstripped us, but with the appropriations from Congress we have a good chance to regain our supremacy. The theory of flight was next taken up and the speaker discussed the angles of the wings and their effect on the lifting power of the machine. In conclusion Captain Gorrell told a number of his own experiences on the Mexican border during the recent campaign.

INSTITUTE COMMITTEE

Point System Recommendations Are Approved

At a meeting of the Institute Committee held Wednesday afternoon the Point System Committee submitted the following reconsiderations which were referred back to them at the last meeting: under Athletic Association president three points, vice-president one point, secretary one point; under Advisory Council undergraduate members six points; under Athletic teams, a list of managers, captains and members as before under the A. A.; Dormitory Committee chairman five points, members two points. The first three recommendations were accepted as they stood and the last one after the number of points allotted to the members of the committee had been changed from two points to one point.

E. P. Brooks '17 reported for the Walker Memorial Committee on the future housing of activities, explaining the space that would be allotted to them. The resignation of E. G. Senter '17 of the Point System Committee, who was elected to the Finance Committee was read and accepted, and R. C. Erb '17 was elected as his successor. The rule that "Any member of the Institute Committee absent from two consecutive committee meetings forfeits his membership and can only be re-admitted by a special vote of the Institute Committee" was brought up for discussion and put over until the next meeting. Representatives of 1918, T. C. A., Mining and Architectural Societies were absent. The meeting adjourned at 6.15 o'clock.

MURAD

THE TURKISH CIGARETTE

REMEMBER—Turkish tobacco is the
world's most famous tobacco for cigarettes

Ever meet a salesman
who was proud of his
goods?

Who knew them, believed
in them, delighted in selling
them?

Purely their supreme merit.

That's how we feel about

MURAD

THE Turkish Cigarette

Because we know it is the supreme Turk-
ish 15 Cent cigarette value in the whole world.

Made of tobacco never used by any
other manufacturer in a cigarette selling
for less than 25 cents.

Judge for yourself—
compare "Murad" with any
25 Cent Cigarette
