WRESTLERS AT WORK

The freshman wrestling squad has been holding regular bouts every Tuesday and Friday evening in an endeavor to pick the best men for the 1920 team. On the first Friday afternoon after the Christmas holidays, there will be an elimination contest from 4 till 6 o'clock, in the basement of Building 1. The semi-finals and finals will be run off and the winners in each class will try to hold their positions against all challengers of their weight. According to Mr. Gracey, the freshman wrestling coach, this promises to be an exciting meet. The names of the contestants will be announced in next Wednesday's issue of The Tech.

The following men are showing up well in their respective classes: Dana, 115 lbs.; Ross, 125 lbs.; Cormier, 135 lbs.; Steele, Badger, and Zahn, 145 lbs.; Levinson, 175 lbs.; and Abercrombie, in the unlimited class.

Sullivan, W. L. Winant.

FENCERS MEET TODAY

There will be a meeting of all men interested in fencing at 1.05 o'clock today in Room 1-175.

COMMUNICATION

The annual elections of the Chemical Society are to be held on Friday of this week, Dec. 22, and I hope that all the regular members of the society will not fail to do their duty and support the society. I am very disappointed to notice the apparent lack of interest in the elections this year. Under the most efficient leadership of its officers last year the society grew to be the largest and one of the most important of the professional societies of the Institute, and its members this year surpasses that of the corresponding time last year. Due to the introduction of the new course in Chemical Engineering Practice, all but one of the present officers will not be at the Institute during the second term, and so it was thought advisable to change the date of election from May to December, and thus prevent the re-occurrence of such a short term of office, in which it is almost impossible to develop any very definite policies. Nevertheless the men who are elected this Friday will serve for one complete year, and upon them rest largely the future of the Chemical Society. For this reason I wish to urge all the members to take a personal interest in the election and to give it careful thought and consideration in order to choose the men who seem best fitted to carry on and to promote the work of your Chemical Society.

Don't forget the date—Friday, Dec. 22; the time—8.45 to 5 o'clock, and the place—first floor, Building 4, at Professor Tabot's office near the entrance under Lavoisier.

JOHN H. HOTTON.
