party was to dine was sighted. Newton then quickened the pace and about 5.30 o'clock the place was reached.

The cabin is about twenty-five feet square and has a large fireplace. After the cold trip, the members of the party grouped around the fire and waited impatiently for dinner. Mr. Medding, the guide's father, had had an elaborate supper prepared and the hikers lost no time in seating themselves around the large table.

After supper, envelopes were given to each man containing instructions as to what his share in the after-dinner amusements would be. Some were instructed to talk on Course XV, others on Billy Sunday, and still others, to sing.

The party broke up about 7.30 o'clock. After expressing their appreciation to Mr. Medding for having arranged things so well for them, they boarded a trolley for Boston and finally arrived home after a most enjoyable trip.

WANTED—Students in Courses II or VI to help in test of a 5000 K. W. Turbo-Generator at the Lynn Gas and Electric Company's station during Christmas week. See A. S. Morrison, Room 3-266.

M. E. SOCIETY TRIP

Mechanical Engineers Visit Pump Works

On Tuesday afternoon twenty members of the Mechanical Engineering Society inspected the plant of the Blake-Knowles Company in East Cambridge. The most interesting feature of the trip was the immense foundries which turn out the large brass castings that the government require for all pump work. The iron foundries here were also the largest and turn out work of the greatest scope of any that the society has yet visited. The machine and pattern shops of the company were visited and the different processes explained to the society.

The same trip will be taken tomorrow afternoon at 1.30 o'clock and as the trip was found to last only two hours, the men can be back at the Institute at 3.30 o'clock.

WIRELESS SOCIETY MEETING

There will be a meeting of the Wireless Society tomorrow at 6 o'clock in Room 1-151. Radio Inspector Gawler will give a talk about his experiences in Mexico with the American troops. Plans will be discussed for working on the antennae during the Christmas holidays.

People who know relative values in portraiture have the Champlain Studios' imprint on their portrait photographs. That imprint reveals you at your best. It pictures you "As in a Mirror." Group pictures taken for members of fraternal organizations and social gatherings.

VENUS

VENUS
10¢ PENCIL

17 Perfect Degrees
 from 6B Softest
 to 9H Hardest
 and hard and
 medium copying

LIKE a soft-leaded easy marking pencil? Take the higher numbered B's such as 3B, 4B, 5B. For the extreme limit of softness 6B is without an equal and is used by many as being the ideal of all pencils.

Medium degree is HB. H's are the harder grades, 2H or 3H being medium hard, and 6H, etc., being used for thin, clear, fine lines of detailings. Your professors will confirm these statements as to the merits of VENUS pencils. Note the distinctive VENUS water mark finish when you buy.

VENUS
ERASER

is beautifully smooth and even in texture. It rubs out pencil marks perfectly. Gray, and does not cause discoloration. 12 sizes from 100 to a box to 4 to a box. Box price \$2.00. Venus Erasers are the best erasers. Ask for them by name.
