N. H. Railroad and Technology Building to be Erected on Parsons Square Real Estate Trust for the Institute

INSTITUTE SELLS OLD BUILDINGS

HANOVER, Mass., Jan. 7, 1917—The New Homes Company has advertised for bids on the Institute's building property at Haverford, the sale of which is expected to take place this week. The property includes real estate valued at $5,000,000.

The sale is the result of a decision made by the Institute's Board of Trustees, which was announced last week. The decision was reached in order to meet the financial difficulties confronting the Institute, and to provide funds for the construction of a new building.

The new building will be erected on the site of the old building, which has been vacant since the close of the last academic year. The new building will be the largest of its kind in the world, and will be financed by the sale of the old building and by the sale of bonds.

The Institute has also announced that it will erect a new building on the site of the old building, which will cost $5,000,000. The new building will be the largest in the world, and will be financed by the sale of bonds.
