SUCCESSFUL MID-YEAR TOUR

Combined Musical Clubs Honored by
Alumni Associations

During the mid-year vacation the
Combined Musical Clubs took an extended
trip which was noteworthy for the
interest and hospitality showed by
the Technology Alumni in the cities
visited. The seven concerts given were
successful in every way and the spare
time of the men was well filled with
interesting amusements.

About forty men went to New York
on the Fall River Line on Thursday,
Jan. 25. After spending the morning
in New York a rehearsal was held in
the auditorium of the Montclair, N. J.
High School, where a concert was given
in the evening. After the concert,
dancing was enjoyed until 1 o'clock.
The men spent the night at the homes
of several Alumni. The next day was
also spent in New York, and the New
York Alumni Association gave a dinner
at the Technology Club for the
Clubs. Among the speakers at the
banquet were President Maclaurin and
Mr. J. J. Carty, chief engineer of the
American Telephone and Telegraph Co.
The concert which followed the banquet
was given at the Hotel McAlpin. The
large audience was exceedingly
enthusiastic and complimentary.

The next day was spent in a special
Pullman on the way to Rochester,
where the men were hospitably
received by the Alumni and their friends.
The morning of the next day was spent
in a trip over the whole works of the
Eastman Kodak plant, followed by a
luncheon in the office of the superintendent.
During the afternoon several
other industrial plants were visited. In
the evening the Hotel Seneca was the
scene of the concert, after which the
men again enjoyed dancing.

The morning of Tuesday was spent
at Niagara Falls, where the points of
interest were all visited. After luncheon
at the Imperial Hotel the train was
taken to Detroit. Following one of the
most successful concerts the men
danced until they had to leave to catch
the 3 A. M. train for Chicago. Here
the Alumni Club gave a dinner in honor
of the Combined Clubs at the Engineers'
Club. The men were also given
full membership privileges at the University
Club, which included the use of the
swimming pool and other parts of the
Club building. The Central Music
Hall was filled for the concert in the
evening, immediately after which the
performers took a train for Akron. The
Alumni gave luncheon and dinner to
the men at the University Club while
the afternoon was spent at the
Goodyear Tire and Rubber Co., the
largest rubber factory in the world. In
the evening a concert was given at the
Marvin Parish House, followed by
informal dancing until midnight.

The next day was spent in Duquesne,
just outside of Pittsburgh, in the Mill
of the Carnegie Steel Co. Although no
visitors are usually allowed, the
Technology men received special permission
to see the manufacture of the munitions,
rails, and other steel products. The
night was spent in a private Pullman
going to Philadelphia, which was
reached at 9 o'clock on Saturday morning.
The Alumni here gave the men a
cordial reception and entertained them
until the concert, which was given in
the hall of the Century Club. The next
day, Sunday, was spent in New York
until the Fall River boat left. The
whole company arrived in Boston
Monday at 8.30 o'clock, just in time
for 9 o'clock classes.

The men were very much pleased
with their cordial reception by the
Alumni of every city and by the strong
interest in the Institute shown by the
large audience at all of their concerts
and they had nothing but praise for
the management, who carried through
the trip without a hitch.

HOCKEY TEAM TO PLAY WILLIAMS

More Men Needed For Team on Account
of Accidents

The hockey team will play Williams
at Williamstown, Saturday, Feb. 10, and
here at Cambridge on Saturday, Feb. 24.
There has been no game scheduled for
Saturday, Feb. 17, as yet, but one or
two games are pending. Watt, point, is
laid up with a torn ligament which he
received during the mid-year trip and
probably will not play again this year.
Swayne, coverpoint, who was hurt just
before the mid-year trip, is back on the
team again and will play the rest of the
season. There will be practice at the
rink every day at 4 o'clock. Manager
Roper wants more men out for the team
as there are ten men to make the Williams
trip, both forwards and defence
men being badly needed.

**ROWERS BEGIN PRACTICE AT
NEWELL BOATHOUSE TOMORROW**

First of Regular Saturday Sessions—
Freshman Managers Called

The first of the regular Saturday
afternoon workouts for the candidates
for the crew will take place at the
Newell boathouse at Harvard tomorrow
afternoon, the upperclassmen and
graduate students reporting at 2
o'clock and the freshmen at 3 o'clock.
The Harvard management has allowed
the use of the equipment at the boathouse,
and the large number of machines
makes it possible for a large
squad to work together. Coxswains are
asked to report at this practice.

The crew management has issued another
call for freshman managers, and
any members of the class of 1920 may
report for the competition any time
before next Friday afternoon, when
the competition will start. Those
reporting before then will receive extra
credit for the work done up to that
time. The candidates should report to
Manager Littlefield or Assistant
Manager Loucks at any of the regular
practices.

The regular practice sessions during
the week are at 1 and 4 o'clock, the
afternoon period running through until
5.30 o'clock for those men who
have classes until 5 o'clock. Regular
periods of practice on the machines
will be assigned by the manager next
week. The squad will practice at the
Newell boathouse at Harvard every
Saturday afternoon until further
notice. To reach the boathouse take
the way to Harvard Square, and walk over
bridge toward Stadium, turning up
river after crossing bridge. The boathouse
is the first on the Boston bank of
the river above the Anderson bridge.
Allow ten minutes walking from
Harvard Square.

**JUNIORS LEAD IN SUPPORT
OF TECHNIQUE CAMPAIGN**

Today is the fifth day of the
Technique sign-up campaign. Although
all of the records are not in, it is
estimated that approximately four
hundred and twenty had been sold
last night. The Juniors are leading
with about two hundred, followed by
the Seniors with something near one
hundred, while the Sophomores have
about eighty and the freshmen have
only thirty-eight. The Alumni
returns have not been made up yet,
but Treasurer Wilkins says that he
believes that they will bring the
total up to four hundred and
seventy-five.

A systematic campaign will be
started in all of the first year
drawing rooms and laboratories
Monday; in this way it is hoped to
get in closer touch with the
freshmen and let them know what
Technique really is. A chart has
been placed on the bulletin board
opposite the Bursar's office and the
standing of each class will be
posted daily.

March 1 is the time limit set for
taking orders and none will be
taken after that date, so if one
wants a book he had better enter
his name for one immediately
unless he wishes to take a chance
on getting one that has been
spoken for and then not taken. It
is hoped that orders may be
booked for more than one thousand,
for this is the smallest number that
can be turned out at the present
price.

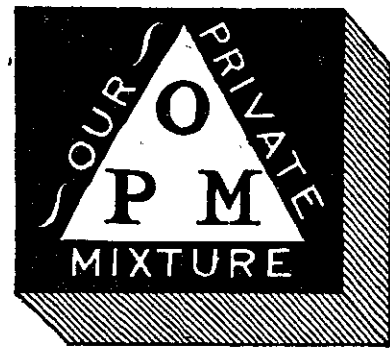

COMMUNICATION

To the Editor of The Tech.

Dear Sir:—
I would like to take this opportunity
to call to the attention of the members
of the Class of 1920 the opportunity
that they have to be of service to
their class in an athletic way. A
week from tomorrow night their
class track team will compete in a
dual indoor track meet with Lowell
High School at Lowell. At the present
time there is a dearth of good men
for some of the events. It is also
a well-known fact that there are in
the class at this time men who might
acceptably represent the class who
are not trying for the team. It
would be a very worthy action if
these men would reconsider the
matter of their non-appearance and
come out today to try for the team.
I understand that trials take place
tomorrow for the team to go to
Lowell—since the entries must be
in tomorrow night. I trust that
the class will send a team typical
of the high athletic average of the
class. This is only possible by every
man in the class who has the ability
being on the team.
NEVERTELL '20.

**BOSTON ENGLISH HIGH CLUB
MEETING CALLED FOR TUESDAY**

The members of the English High
School Club will hold a meeting
Tuesday, Feb. 13, in Room 2-190, at
5 p. m. At this meeting the new
constitution will be read, and plans
for the term will be discussed. All
graduates of the Boston English High
School are requested to attend.
