**THE TECH**

**CONTENTS**

**Technology's Mobilization.**

The will to help the nation in its time of need has been evident ever since among our colleges and universities, but the Massachusetts Institute of Technology is in ready battle with the will and the way. The present President Wilson terminated relations with Germany, and, Madison, the head of the Institute, offered to the Government the services of the entire student body in such work as might be assigned.

**Up to the Corporation**

In regard to the financing of the Undergraduate Association, I want to learn that the alumni and friends with the plan of taxation proposed by the Ways and Means Committee. The committee is the graduate students, and offers being given to be made of the presidency of the Association, and the Managing Editor for the matter which appears in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

**To the Corporation.**

I am writing to learn that the alumni and friends with the plan of taxation proposed by the Ways and Means Committee. The committee is the graduate students, and offers being given to be made of the presidency of the Association, and the Managing Editor for the matter which appears in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

SomeDescriptions: For The Langnese and The Trust should be addressed specifically to the office of The Tech.

**UP TO THE CORPORATION**

In regard to the financing of the Undergraduate Association, I want to learn that the alumni and friends with the plan of taxation proposed by the Ways and Means Committee. The committee is the graduate students, and offers being given to be made of the presidency of the Association, and the Managing Editor for the matter which appears in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

One reason why the plan should be given support is that its adoption will mean that every registered student will have an equal right to share with his brethren in all the privileges the Institute may offer. This whole great system of education is simple and will reach every student. We are in hearty accord with the idea of such a levy which will make the discontented student alive to his responsibilities.

**OTHER COMING SPORT**

If you're enthusiastic to greet a meeting tonight to formulate plans to ask the Institute for land and tennis courts. This is a matter that ought not to be gone at too hastily. First of all pains should be taken to ascertain the actual number of men interested in tennis and how much such courts would be used. It is essential that the site selected for the tennis team has not been used to any great extent and it would be desirable to have the site selected for putting tennis courts if they were to be neglected in a similar manner.

Tennis courts would be a great addition to the campus and the students would be interested in tennis courts if they were to be neglected in a similar manner.
