IT IS POSSIBLE that Debs was wrong in his conclusions that labor is exploited for the benefit of the capitalist in time of war. But it is quite clear that Labor should call a general strike if war is de-clared—as the Press tells us that representatives of three millions of our so-called laboring class have pledged themselves to do every-thing in their power to aid if war must finally grow out of this crisis. Where is it that Eugene got sidetracked? We feel it was when over the heads of the knowledge-seeking pupils of Greater Boston's high schools who science, and the influx of requests for admission indicate the scien-tific digression. The student above all should have an opportunity and the training, to be well informed concerning the back from the heights into the class of most of us.
