CONSTRUCT either from our own designs or from designs of other engineers or architects.

REPORT on public utility properties, proposed extensions or new projects.

MANAGE railway, light, power and gas companies.

NEW YORK BOSTON CHICAGO

### BANKING AND SAFE DEPOSIT

The nearest Cambridge bank to the Institute is the Central Trust Company. Its main office is at No. 599 Massachusetts Avenue, exactly at the easterly entrances and exits of the Central Square Station of the Cambridge subway.

The Central Trust Company is not only the oldest bank in Cambridge—the business having been established in 1826—but it also is the largest suburban trust company in Massachusetts. This institution has built up its business and increased its clientele by the high character of the service it renders to the public.

On checking accounts two per cent. interest is allowed. This bank has always paid four per cent. on savings accounts and interest begins on the first day of each month. There is no limit to the amount which may be deposited in the savings department. The safe deposit vault is on the ground floor and the rates are one-half the Boston rentals. This company also has a large foreign exchange business. The members of the Technology faculty who are storing valuable books and manuscripts can have their books and papers much more accessible by having them in the Central Trust Company vaults. The company calls for and delivers storage without charge.

The business hours of the Central Trust Company are very convenient and will meet the requirements of both the members of the faculty and the students of the Institute. The bank's doors are open every day, except Saturday, from eight A. M. to four P. M., and on Saturdays the hours are from eight A. M. to one P. M. and from six to eight in the evening. Saturday evening all departments are open and all lines of the company's business are transacted.

Banking business may be transacted by mail, as this company has facilities for expediting and safe-guarding any business transacted through the mails. Deposits in the Central Trust Company may be made at any United States mail box.

The professors and students of the Institute will find that the Central Trust Company is mindful of their special needs and that it offers them a banking service that is not only highly efficient, but that is also cordial and neighborly.—Adv.

### RIFLE CLUB MEETING

Discuss Indoor Work and Plans for Coming Outdoor Shooting

There was a meeting of the Rifle Club last evening at which plans for the remainder of the indoor shooting season, and also for the outdoor work, were discussed. Captain Stahl called the meeting to get all the men on the indoor squad and those who expect to come out for the outdoor team together so as to talk over the work and receive suggestions from them. It has been found inconvenient to have all of the men shoot their match targets on the same day as has been done heretofore, so the present system of having two men at the range at a time was devised. Some of the men have been dropped from the team squad because they did not shoot when scheduled, but beginning next week the squad will be revised on the basis of scores alone.

Captain Stahl stated that he is very desirous that more men come out for the indoor work so as to get in some practice before the beginning of the outdoor season. In connection with this, he also said that preference would be given to members of the indoor squad in picking the outdoor team.

Captain Stahl has arranged a system of conferences so that he can meet each member of the squad for half an hour or more to talk over his work and discuss means of improving the scores. There are only four more indoor matches after this week, so that the indoor shooting will be over about the middle of April. The last two weeks of the indoor season will be devoted exclusively to the shooting of indoor qualifications. Any member of the club is eligible to try these qualifications.

## VENUS 10¢ PENCIL

No matter what course you're taking you need this famous pencil!

BECAUSE of the superlative quality of material and workmanship, VENUS is the finest pencil it is possible to make.

If you like a thick soft lead that marks so that you can read the writing half-way across the room, choose the soft degrees 6B—5B—4B.

For short-hand notes or easy writing 3B—2B—B (medium soft) are popular.

For sketching, general writing purposes, etc., HB—F—H—2H (medium) will prove desirable.

For drafting, a medium hard pencil gives the best results and you'll like 3H—4H—5H—6H.

For very thin, narrow lines for extremely accurate graphical charts, maps, details, etc., 7H—8H—9H are available.

Look for the distinctive water mark finish on each of the 17 black degrees and hard and medium copying.

Your professors will confirm these statements as to the merits of VENUS pencils.

For sale at the college book store.

**FREE!**

This box of VENUS samples free. State the course you are taking.
