CAMS An Academical Year of Changes 1964-1965

A Record of Continuous News Service for 35 Years

COMMITTEE GIVES FAVORABLE REPORT ON STAGNATION

The committee appointed by the Inter-Collegiate Council to study the problem of stagnation in the College has completed its report and turned it over to President W. J. Rawls. The report and the Corporation will be presented to the Faculty at the next meeting, on March 26.

The committee's report is that there is no stagnation in the College. The committee feels that the College is doing an excellent job and that it is moving forward in the right direction.

The committee recommends that the College continue on its present course and that no further steps be taken to alleviate stagnation.

GUARD MARCHING IN PREPAREDNESS PRACTICE

The 4th of July parade was held in downtown New York City. The parade was sponsored by the American Legion and attracted thousands of spectators. The parade featured floats, marching bands, and military units from various states.

The highlight of the parade was the appearance of the 4th of July colors, which were carried by members of the American Legion. The colors were presented to the city by the American Legion, and were used to mark the beginning of the parade.

The parade concluded with a fireworks display, which was viewed by thousands of spectators.

The parade was a success, and the organizers are already planning for next year's event.

CAMS Celebrates 100 Years

The College of Arts and Sciences celebrated its 100th anniversary this year. The celebration included a variety of events, such as a gala dinner, a special lecture, and a museum exhibit.

The gala dinner was held on Friday, October 10, and was attended by many distinguished guests. The special lecture was given by Dr. John Smith, a renowned scholar in the field of literature.

The museum exhibit, which was located in the college's main building, featured many artifacts from the college's history. The exhibit was open to the public and was well-received.

The 100th anniversary of the College of Arts and Sciences was a great success, and the college looks forward to many more years of growth and development.
