SOPHS ENCAMPIED AT TECHNOLOGY, MAINE

Recent Rains Halted Work on Company Barracks and Men Are Sleeping in Tents Until Their Construction is Completed.

ELECTRICITY WILL LIGHT CAMPS

(Bulletin No. 44)

From The Tech Correspondent

The recent heavy rains have caused much inconvenience at the Institute. The company barracks, which have been under construction for some time, have been halted and the men are sleeping in tents until their construction is completed.

In order to provide light for the camp, electricity will be supplied. The plans for the installation of the system have been completed and work will begin as soon as possible.

TECH MARINE ENGINEERS

Institute Given Task of Supplying Merchant Steam Men.

The task of supplying food and water to the merchant steam men was given to the Institute last week. This is the first time the Institute has been given such a task.

The Institute will be responsible for supplying food and water to the merchant steam men until they reach their destination. The Institute has already begun to make preparations for this task.

BULLETIN NO. 44

JOINT COMMITTEE ON TECHNOLOGY

June 26, 1917.

The Joint Committee desires, in order to keep the Institute informed, to call the attention of all students who have taken marine engineering to the nature of their work, and to the nature of their work, the Institute. This will help to keep the Institute up to date with the latest developments in the field.

TECHNOLOGY BUREAU

The Technology Bureau was given the task of supplying food and water to the merchant steam men last week. The Institute has already begun to make preparations for this task.

TECHNIQUE 1919 BOARD HAS

Asst. Editor, Tech. News

June 26, 1917.
