The Du Pont Oval is Our Trade Mark

It is emblematic of an honest product, guaranteed by us to be as represented—the best we know how to make for its purpose.

For 115 years the policy of this business has been to get and hold customers by giving them full value for their money.

This policy continues. It applies to every article we make and sell. If any article, bearing our trade mark, or of that or any similar kind that we make, should prove not right, we will guarantee you, by prompt return, to be completely satisfied.

This Policy Is Ours, Not Merely for Moral Reasons But Because It Is Good Business.

We value the customer far more than the transaction. We want you to know this, especially at this time, because our line of products is so broadening and one or more of them must inevitably come before you. Already we are making and selling 250 different articles, whose names are saleable in every home or business.

4. We ask your full confidence and your continued patronage.

Football is being taught at the start of the football season this year, and though there is little clash of the game being in popular favor during the coming season, many schools have begun the work of training to prepare for the spring season. Some schools have adopted the new system of training, which consists of drilling and practice, while other schools are following the old system of practice and drill. The new system of training is in favor because it is said to be more effective in preparing the players for the actual game. The old system of training is in favor because it is said to be more popular with the players.
