### The Significance of 1802-1917

It is emblematic of an honest product, guaranteed by us to be as represented—the best we know how to make for its purpose and at the price.

For 115 years the policy of this business has been to get and hold customers by giving them full value for the price paid.

This policy continues. It applies to every article we make and sell. If any article, bearing our trade mark, or that of any concern mentioned below, is offered to you, it may be bought with full confidence that it is on as good faith as being right and that if through human fallibility, it should prove not right, we seek the chance to make good.

**This policy is our, not merely for moral reasons but because it is good business.**

We value the customer more than the transaction. We want you to know this, especially at this time, because our line of products is broadening and one or more of them must inevitably come before you. We believe we are selling 250 different commodities...all of which are salable in every home or business. We ask your full confidence and your continued patronage.

E. I. du Pont de Nemours & Co.

**Wilmington, Delaware.**

### The War-Time Tech

**TECHNOLOGY itself is giving remarkably effective wartime service to the Country.**

**THE ALUMNI** in large and rapidly increasing numbers are in government or industrial work essential to war success.

**The War-Time Tech**

- **NEWS** from the Alumni centre at Washington, in the heart of news.
- **NEWS** from the fifty local Technology Associations all over the Country.
- **NEWS** from the Technology centre in Paris, in touch with all those at the front.
- **NEWS** from the Technology News, from the Summer Camp, from Platfons and from all other training camps where Institute men may be.
- **NEWS** from the activities of the Institute itself and of its teaching staff.
- **NEWS** from the Institute are not only on the professional, but on the personal as well. We value the customer far more than the transaction.

**NO TECHNOLOGY MAN CAN AFFORD NOT TO SUBSCRIBE** to THE TECH.

### THE TECH

**WASHINGTON CORRESPONDENCE.**

- Executive Secretary, Technology Club of Washington, 20 Union Triangle Bldg.
- **Personal.**
  - Capt., Bradie Downey, Oceanus Recruit Corp., has been added to Washington for duty.
  - First Lieutenant H. S. Lord, E. I. du Pont de Nemours & Co., has been added to Washington for detail at the Engineer depot.
  - Student has been accepted in the Navy Reserve Flying Corps, and will be detailed to the Institute ground staff.
  - Among the alumni at the Washington Office are: 
    - Edward C. Ells, E. I. du Pont de Nemours, and 
    - William B. Story, Army Ordnance, both of New York.

**Professor Pearson's Itinerary.**

- Prof. H. E. Pearson, while obtaining the seal-and-shovel, seems to acquire the almost complete details of Technology service to the country, has arranged the following engagements, in his Itinerary:
  - Philadelphia, July 31 and August I.
  - Pittsburgh, August 1; Cincinnati, August 4; Chicago, August 5; New York, August 7; Boston, August 9; Philadelphia, August 11; Baltimore, August 13; Washington, August 15; Minneapolis, Chicago, Detroit, Cleveland, Buffalo, Rochester, and New York.

**The Draft and Technology Men.**

- Brig. Gen., Commandant, Provost Marshal General, has stated definitely that all men drafted, especially those specifically retained in the Selective Service Act, will be sent into the draft service.

This includes doctors, dentists, mechanics, plumbers, now in Putlshurg training camps, and undergraduates in technical schools.

As a result, all men will start on the same basis, in the same organizations as soldiers.

The selection of the War Department is that no man is drafted by virtue of special ability and special training to that extent.

Since it is the first day of the draft, the designations of draft numbers will be made, and the names will be delivered to the men, who will be notified to report to the nearest recruiting officer, wherever he may be.

These requests go to the press with the same system of public notice that is used for the Selective Service Act, and the same opportunity. To the overwhelming proportion of our citizens, the draft is only a look ahead for a better future, a duty that is just as patriotic adherence to the solution of the problems of the war, as their own personal service.

**A TIME OF UNIFORMS.**

**NEW RULES FOR PERPS CENSORSHIP.**

(Continued from Page 3)

bumped to be served on the control of anti-aircraft, or lack of protective cover, is a request for this clemency by the Administration, which may be of practical importance in the war.

To this end, what do they wish to secure, or aim at? It is to guarantee the preservation of the lives of Americans as we go over into the war, and to make it possible for them to live.

These requests go to the press with the same system of public notice that is used for the Selective Service Act, and the same opportunity. To the overwhelming proportion of our citizens, the draft is only a look ahead for a better future, a duty that is just as patriotic adherence to the solution of the problems of the war, as their own personal service.
