A TASK WORTH WHILE

C O N G R A T U L A T I O N S are due the Technology men who won their commissions at Plattsburg and other training camps. They have successfully passed through the weeks of hard work required by the Government and have been rewarded by the coveted offices in the new army.

But, difficult as has been their path up till now, the work which lies before them is no less difficult. To whip into shape the vast drafted army which will be composed of all grades of intelligence is a task which will try their strength and patience to the utmost. The problem will not be made easier by the number of men who are going in unwiselessly into service, socialists, conscientious objectors, and cowards. It is to be expected that these men will make all the trouble in their training camps, and will be necessary not only to discipline the new arrivals and to subdue them through fear but they must be aroused to at least some slight feeling of patriotism and enthusiasm for the cause in which they are joined. An army without enthusiasm is defeated from the start.

For the first time in their new offices will have a job on their hands worthy of men. Technology will be proud of her sons and their service, and her people, technology, will take pride in the new officers in their new positions.

WALTER SLOWING WILL BE
SECRETARY OF BOSTON UNIV.

PHILADELPHIA, Aug. 16.—William B. Cowen, assistant curate of the Philadelphia Naval Academy and widely known as a physical director of that institution, has been appointed to an emeritus position of the secretary of Boston University.

He has been assistant emeritus here, the highest director position in the long body, since May 1911. The position was previously held by Dr. William H. V. Smith, who had served as a member of the council, and was succeeded in his position by William H. V. Smith, who had been appointed to the emeritus position of the secretary of the Connecticut, Friends School. He became interested in the Boy Scout movement at its inception. He is a native of Northampton, Mass., and much of his early work was done in New York. He attended school in New York, and was graduated from Columbia University. New York. He founded Massachusetts Institute of Technology, whose headquarters are in Cambridge, Mass., in 1908.

NEW YORK SCHOOLS
CLUB ELECTS NEW OFFICERS

The election of the officers of the Tech school of New York, for the coming year was held last week. The following is a list of the new officers:

President, Frank M. Gross, '16, class of 1915;
Vice-President, C. L. Stoddard, '16;
Secretary, W. F. Reynolds, '16;
Treasurer, F. H. Farnsworth, '16;
Auditor, W. E. Watts, '16;
Editor, W. H. Burrows, '16.

PLAN TO OPEN NAVIGATION SCHOOL AT SOUTHBOROUGH

The United States shipping board re- cuiting service announced it has been directed by the secretary of commerce for navigation at Southborough, to cover the field from New York to Chicago. In the early weeks of next season, adequate candidates apply for instruc- tion in the new school, which will be held in schools at Portland and Auburn, Maine, at Carlsbad, San Diego, San Pedro and San Francisco in California.
