Three Recent Graduates

Just Commissioned Reserve Officers

H. E. Bollard '77 Second Lieutenant Infantry

The college has received word from the Secretary of War that the Infantry Unit, Senior Division, of the Reserve Corps, will be maintained next year, and that a new reserve officer will be detailed as a member of military service as soon as a field for the training military will be provided. This college is being used as a training field, and the students called for military training will be provided for by the professors of this college and by the reserve officers who are now living there. There will also be other officers who will be appointed by Government officers. We are to have an army and a navy, and every man will have a chance to serve.
