The Massachusetts Institute of Technology
CAMBRIDGE
RICHARD C. MACLAURIN, M.A., Sc. D., LL.D.
President

The Massachusetts Institute of Technology offers courses, each of four years' duration, leading to the degree of Bachelor of Science in Engineering, in Civil, Mechanical, Mining, Electrical, Chemical, and Sanitary Engineering; in Architecture, Chemistry, Electro-chemistry, Biology and Public Health, Physics, General Science, and Geology and Archaeology, and in Engineering Administration.

To be admitted to the first-year class, applicants must have attained the age of eighteen years and must possess such qualifications as are possessed by students in the following institutions: Harlan College, New York; Holyoke, Massachusetts; and the State Normal Schools of Massachusetts. A division of those entrance subjects between June and September or between two successive years is permitted.

Interesting examinations are held at the Institute in June and September of each year. In June, applicants may be examined also by the College Examination Board in New York, Philadelphia, Chicago, and many other cities in America and Europe. From a similar inspection school principals are invited in advance, and will be mailed on application.

Graduates of college and scientific schools of collegiate grade are admitted, without examination, to such advanced standing as is warranted by their previous training.

Graduate courses leading to the degree of Master of Science, Doctor of Philosophy, and Doctor of Engineering are also offered. Special Research Laboratories of Physical Chemistry, Applied Chemistry, and Biological Science have been established.

Correspondence should be addressed to Prof. A. L. Merrill, Secretary of the Faculty.
