Many of the students have indicated that they will be able to attend the meetings and work and the probability is that this number will be able to attend the meetings and work.

I. W. Litchfield '85 Receives Alumni Gift

Purse of $3,500 Senn Technology's Alumni Leader to Attend 1956 Reunion

Now located in Washington

Recruit the Alumni of Technology

Present Mr. L. W. Litchfield '85, a purse of $3,500 as a token of their appreciation and return of the efficient work accomplished by Mr. Litchfield, call or e-mail to the best known, this is probably one of the most active members of the Alumni Association. The amount of this gift is unconnected with the amount of work accomplished by any organization of any college in this country. The organizing and bringing together of the Technology graduates have accommodations in different states is due in a large part to the vigor and enthusiasm of Mr. Litchfield.

New Men Make Good Showing in Preliminary Trials

The trials of the first week brought out two interesting facts: 70 per cent. of the men had never been a member of the Military Department. The first trial was given to the Military Department on Nov. 13. The preliminary meeting is to be given Nov. 13, 1985, at 5:00, on the campus of the University of Technology, in the Hotel Senator at 3:00. The order of finish for the first two weeks was determined at the first trial. The leaders were discovered in the trials. The three leaders (first, second, and third) were discovered in the first trial.
