CAMBRIDGE, MASS., MONDAY, OCTOBER 15, 1917

42 PLACES IN THIRD OFFICERS’ CAMP OPEN TO INSTITUTE MEN

Technology High Among Educational Institutions
Granted Quotas to Attend Reserve Training Camps.

ALUMNI ALSO ELIGIBLE.

A QUOTA of forty-two men has been granted to the Institute to attend the third series of officers’ training camps that will be held at different posts in the United States in the near future. The quota is handed by the War Department, and is being listed among a list of 99 military schools and colleges which will furnish a total of 1,193 officers to the service.

The quotas for the other officers’ camps will be issued at a later date.

TAX DOGDOES

Institute Committee Takes Up Quota.

A long meeting of the Institute Committee last Thursday afternoon resulted in the postponement of action regarding the filling of the quota in regard to application tax designs. It was decided to call for the names of those who refused to pay the tax from this or any previous quota.

The matter started with reports from the Postmaster General, Inspectors of the Central Camp Board. Last month the quota for the Institute closed, and the names of the outstanding tax dodgers were sent to the Post Office Department.

The question of how to fill vacancies in the officers’ three classes will be discussed at the next meeting, and the matter was left in the hands of the Institute’s quota committee.

There will be an important news lecture at 7:30 o’clock to-day. Attendance of all those who are considering the Institute’s work will be requested.

CHEM. SOCIETY SMOKER

Years’ Work To Be Discussed.

Tonight at 8 o’clock the Chemical Society will hold its first meeting of the year. Tonight’s business will be devoted to a discussion of the Society’s program for the coming year. The business meeting will be followed by a social event.

The Society’s membership is now almost at the peak level which it was last year. The membership will be opened to all members of the Chemistry department of the University.

The meeting will be held in the Chemistry Department’s rooms.
