THE TECH

ANNUAL DINNER OF CLASS OF 1909 HELD LAST SATURDAY.

At the Annual Dinner of the class of 1909, held at the Boston City Club last Friday evening, George C. Thomas, Jr., who has just returned from Russia, told of some of his experiences in that country. Conditions in Russia are not as bad as they are generally supposed to be, but the government has come into the hands of a communism which has gone to extremes. The present has been overcome without any new organization adopted. It is the government which plans everything, and only the committees set up to work out the details. The present government has not caused much concern, but when the present government is overthrown, it will be continued.

Conditions in Boston are not as bad as they are generally supposed to be. The economy of the city has been overcome without any new organization adopted. It is the government which plans everything, and only the committees set up to work out the details. The present government has not caused much concern, but when the present government is overthrown, it will be continued.

We employ no high priced salesmen to solicit you.

When a man purchases once we rarely lose him as a customer.

Why?

Because we have always been able to give quality by supervising the manufacturing in our own workshops.

Because our prices are low for the kind of suits we build. That is due to low selling expense.

Our Wish is that you will investigate before ordering your suit or overcoat.
