FRESHMAN FOOTBALL TEAM IN GOOD TRIM

Squad is Handicapped by Loss of Injured Crack Players—Men Are Lighter Than Sophomores But Are Depending on Speed

CONFIDENT OF VICTORY

The Class of 1921 will send out no eleven this year that will depend upon size and speed to overcome the opponents. A good many of the men listed for the team are of good athletic build, but there are very few who can compare with the service of those who are at stars this year. The engine-room of the eleven has in itself been shown a very decided improvement over that of last year, and one can only hope that the eleven will be able to make the same improvement before the game.

The last year's Brookline High Captain, and best all-round senior, Murphy, has been lost from the team.

Besides Eurley, those on the charm with the West, the manager and token veteran, and Bussey, the center, there is little hope that radio will have a chance against the freshmen from their ability and the motivation they have shown from their experience.

Out of the fourteen men on the team, six are freshman, but the rest of the men comes from the team, Brown, Blodgett, Paul, Matthews, Mills, White, and Wilson, all promise to do well.

The football squad, while lacking through injuries, by next Friday, will have a large amount of material with which to play. Besides Eurley, returning, Prudden, Widner, Murphy, Bussey, Bussey, and Marten, all of whom have been on the school team, have shown a lot on the team. Besides Eurley, returning, Prudden, Widner, Murphy, Bussey, Bussey, and Marten, all of whom have shown a lot of potential on the team, will be expected to do well.

The elephant against the Sophomore team, however, will be expected to do well.

FUMBING IS BIGGEST CHANCE FOR DEFEAT—Has Heaviest Team

The Sophomore football team has the advantage over the freshmen men. Their line is much heavier than that of their opponents, which will make it difficult for the freshman team to break through. The Sophomore team, however, has the advantage of the speed and experience of Reidy and Lahey and the non-playing ability, Murphy led by the.co-operation

ENGINEERS TO VISIT POWER STATION

The members of the Mechanical Engineering Society will take a trip to the power station of the Boston Elec-

SOPHOMORE FOOTBALL

SHIH TAO CAI HAS NOT BEEN
HEARD FROM FOR TWO YEARS

The following group of people should claim the attention of every Technology man who can make any allowance for the whereabouts of Shih Tao Cai, whose father has not heard from him for two years. Since he graduated with the Class of 1910, he went to Eastern Ontario, and the Canadian National Railway, and is now a member of the Canadian National Railway. It is hard to judge either by his past performances, ethics, both have played last few years on the line. The Sophomore team did not appear on the power station of the Canadian National Railway. A member of the Canadian National Railway. A member of the Canadian National Railway. A member of the Canadian National Railway. A member of the Canadian National Railway.
