NEW DRAFT REGULATION

which instead of granting outright excu-
se, granted exemptions with condi-
tions.

To A. Sanders, ’16, chairman of the
Board of the A. S. M. E., was
located here at the Institute, and who
acted as the representative of this or-
ganization at the New York meeting,
which could be due to the presence of
the amendment. The representatives
of the different societies of the Engineer-
Board held meeting in the En-
gineer’s Building. Each representative
was called upon to make a report of
the military condition in his respective
school and the effect upon the stu-
dents. to make any suggestions
which he considered might aid the stu-
dents in their relation to the service,
so it happened that Sanders was
among the first called upon to be made
of the different, societies of the Student
Section held their meeting in
Cambridge, immediately so that students
could be informed of the
Proceedings, Back
