THE TECH

The Question Box has been inaugurated for SERVICE. So many questions have arrived and so many doubts have been expressed among both the current and the Alumni of the Relations of Technology and Technology that the Tech has deemed it advisable to establish a medium for clearing up these difficulties. It is strongly desired that neither the Alumni nor the students will hesitate to send in any questions that they may think will be of benefit to Technology in general.

The Question Box is for YOU personally. Be sure you use it.

Question Box, The Tech.

Will you please tell me just how much new work will be required of students taking the intensive course in Engineering which the students have undertaken to establish? The Tech. The matter of course selection will be decided on within the next few weeks, but each letter must be answered.

The Question Box is for YOU personally. Be sure you use it.

Question Box, The Tech.

THE PASSING OF THE ARMY AVAILORS.

In view of the fact that a large number of the seniors of the University of Michigan are leaving for military service, the Tech assumes no responsibility, however, for the facts stated or for the opinions expressed.

The Editor-in-Chief is always responsible for the opinions expressed in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

The Tech.

We thank the Technology Review most heartily for the splendid condemnation which it gave in its July and November issues to The War-time Tech. The "boost" is sincerely appreciated and we hope that we will continue to meet with the approval of the Review. We will endeavor to maintain the high standard of usefulness which was set for us by the enthusiastic Reviewer of the Review. The job is a man-sized one, but we have undertaken it with confidence that we shall be able to fill the shoes left vacant by the discontinuance of these monthly issues.

One thing, however, will not be lost sight of. The undergraund will be as fully covered as heretofore and in mind, and a decision must be reached concerning these. The election of new officers of The Tool Outing Club is taken on the backs of University of Indiana, has been scouring the country for a degree. The matter will undoubt- edly be referred to a committee in the near future.

President Butler, in his annual report to the Board of Trustees of Columbia University, recommended sweeping changes in the administrative requirements of the Liberal Arts, and a reduction of the faculty in order to center the student in the main curriculum courses.

In view of the fact that a large number of the seniors of the University of Michigan are leaving for military service, the Tech assumes no responsibility, however, for the facts stated or for the opinions expressed.

The Editor-in-Chief is always responsible for the opinions expressed in the editorial columns, and the Managing Editor for the matter which appears in the news columns.

The Tech.

Dear Sir:

Mr. N. H. Smith, of the University of Indiana, has been scouring the country for a degree. The matter will undoubt- edly be referred to a committee in the near future.

The Tech.

The Tech.

Some doubt in the minds of those who signed their intentions of taking the intensive course in Naval Architecture as to whether or not the course has met with the approval of the Naval Architecture Department. A definite announcement from the Naval Architecture Department of developments to date would at least clear up the matter.

The Tech.

The advantages we offer. An efficient and courteous organization, progressive methods, large resources and three offices, conveniently located in different sections of Boston, combine to make the Old Colony Trust Company the most desirable depository in New England.
