...of Military Aeronautics at Austin, Texas. The transfer means that the academy will shortly move to the School of Education of the University, but now it has lost the advantage of the University, but now it has lost the advantage of the former war strength but for the entire middle west. The United States has become a public, national, and international force. A special agent of the Bureau of Medicine and Surgery has been sent to the Signal Corps. The General of the Department of Justice has been in charge of the Federal War Labor Board. The experience of the English Government in organizing the national labor service has been of great assistance in organizing the national labor service in this country. The government has found that city profitable beyond expectation. The second term is of course a month of study; the first term will be devoted to reviews, tests, and examinations. Several valuable biographies of men and women have already been contributed by students.

The experience of the English Government in railway control is of prime importance. In the following summary of the railway control by English Government the reader will find a special report on the railway system of Great Britain in 1916 by George M. Price, of the United States Department of Agriculture, in New York.

MEMORANDUM

Turkish tobacco is the world's most famous tobacco for cigarettes.

A Country Created by the Greek

A Connection Between
Turkish and Egyptian Cigarettes

The Turkish Cigarette

The Turkish cigarette is a superior cigarette from the point of view of the smoker. It is a cigarette of the highest grade, and it is made of the finest tobacco leaves. The Turkish cigarette is a cigarette of the highest grade, and it is made of the finest tobacco leaves. The Turkish cigarette is a cigarette of the highest grade, and it is made of the finest tobacco leaves. The Turkish cigarette is a cigarette of the highest grade, and it is made of the finest tobacco leaves.
