The Technology Rowing Association is issuing a call for any men interested in rowing. Here is an excellent chance for a man who has never rowed before to learn the sport under the guidance of experienced rowers, including members of the Harvard and Columbia University clubs.

The Junior Freshmen, who are new to the College, are invited to join the Technology Rowing Association. The following list includes all members of the Class of 1927 who have expressed an interest in rowing:

- Charles R. Smithwick, R. H. Smithwick '21
- Albert E. Farrington '19
- Arthur C. Harvey Co.

The Question Box has been inaugurated for the benefit of students. Students are encouraged to submit questions to the editor, and the answers will be published periodically. The editor, Mr. Albert Kruse '20, is available to answer any questions that students may have regarding their studies or personal concerns.

The Question Box Editor, The Tech, will do his best to answer questions as promptly as possible. Any questions that require more detailed attention will be forwarded to the appropriate departments for further investigation. The editor requests that students submit their questions in writing, either by mail or in person. The deadline for submitting questions is Thursday, February 7, in Rooms 1401-1404. Questions that require immediate attention will be addressed promptly.
