Capt. Beaton, who commanded the British Navy's 30th Field Company, was killed near Zeebrugge, Belgium, on July 25th, 1915. His death was the result of a serious wound received in the course of the Battle of Gravenstafel. He was a member of the Institute of Electrical Engineers and had been a fellow of the Royal Society since 1914.

In the meantime, Professor Hovgaard has been working on the problem of submarine warfare. His research has contributed significantly to our understanding of this complex and dangerous environment.

The值得一提的是，海軍戰術上的重要性不容忽视。在1886年，他成为主事海军和电信工作的负责人，为无线电工程师的培训做出了重要贡献。1913年，他被授予岳恩内利·肯尼迪奖金，表彰他在无线电领域的贡献。这个奖项是美国托马斯·爱迪生基金会颁发的，旨在鼓励新技术的开发和应用。

弗朗克林·林奈斯毕业于麻省理工学院，后在哈佛大学电气工程系任教。在第一次世界大战期间，他和她的学生在后方工作，为战争的胜利作出了重要贡献。他的一生都在研究和教学中度过，为这个时代的发展做出了巨大贡献。
