GIBBS SCORES HITS AT THE TECHNOLOGY BUREAU, PARIS

MA Men in France Write that the Technology Social Center is One of the Most Active in the Union

OTHER BUREAUS ENNUNDS

About two months ago the Vintage George Gibbs arrived in France to assume charge of the Geology Bureau of the American University. Since then various reports of his activities have been coming from Paris about his work, still the

Here is a picture of Gibbs, in a letter to Consul Haskell of the American Consulate, says:

"I want to take the earliest opportunity to say my return to America to tell you I am well and that the work which I am doing is progressing satisfactorily. I have had the pleasure of meeting a number of our students and friends and am glad to learn that they are all doing well. They are doing a great deal of work and are producing good results. I am sure that the students will benefit from the experiences they are gaining here.

"While in France, I have been able to observe many of the scientific and cultural institutions of the country. I am impressed with the efficiency and organization of these institutions. I am also pleased to see the enthusiasm and interest shown by the students in the work being done. I am sure that the University will be proud of the contributions that these students will make to the advancement of science and culture.

"I am looking forward to my return to the United States and I am confident that my experience here will be of great benefit to me in my future work. I am grateful for the opportunity to spend this time in France and I am looking forward to my return to my beloved alma mater."
